## GENERAL INFORMATION

ReQUEST® is a water conditioning agent designed to enhance the performance of pesticides affected by hard water. Additionally, the sequesterants and chelating agents that make up ReQUEST® are combined with ammoniacal nitrogen. Ammoniacal nitrogen has been recognized as an effective enhancer of pesticide uptake by some plant species. As a result of these activities, ReQUEST® can positively affect pesticide spray application and efficacy.

ReQUEST® contains no surfactants and additional adjuvants may be necessary for optimum pesticide performance. Refer to the pesticide label for the need of additional adjuvants. ReQUEST® does not contain buffering agents and therefore is compatible with sulfonylurea herbicides and other pesticides which are sensitive to reduced pH. Never mix ReREQUEST® with undiluted pesticides.

### DIRECTIONS FOR USE

In all applications of ReREQUEST®, read and follow directions on the pesticide(s) label as to procedures, dosage rates, timing of applications, and restrictions for the crop on which the pesticide is to be applied. ReREQUEST® can increase the activity of some pesticides. The use of test areas is recommended when applying during periods of high humidity or high temperature or to other situations where field experience is limited.

The addition of an adjuvant to some pesticides or pesticide tank mix combinations may cause phytotoxicity to the foliage and/or fruit of susceptible crops. Prior to the addition of ReREQUEST® to spray mixes, the user or application advisor must have experience with the combination or must have conducted a phytotoxicity trial or must take the recommendations from the labels of products to be tank mixed.

### RECOMMENDED USE RATES

**GROUND:** Apply at the rate of 1–4 pints in 100 gallons of spray (0.125–0.50% v/v).

**AERIAL:** Use 2–4 pints per 100 gallons of spray (0.25–0.50% v/v).

**WATER CONDITIONING:** Use 1 to 5 pints per 100 gallons of water as a general use water conditioning agent for hard water sequestering.

**NOTE:** ReREQUEST® is a water conditioning agent. ReREQUEST® does not replace the need for a crop oil concentrate adjuvant or nonionic surfactant. If the pesticide label recommends it, then additional crop oil concentrate adjuvant or nonionic surfactant should be added.

### MIXING

Prior to any pesticide application, all spray mixing and application equipment must be thoroughly cleaned. Carefully observe all cleaning directions on the pesticide label.

1. Fill spray tank one-half full with water and begin agitation.
2. Add ReREQUEST®.
3. Add pesticides and/or fertilizers as directed by manufacturer's label or in the following sequence:
   - Micronutrients and fertilizers
   - Dry fl owables or water dispersible granules
   - Floowable
   - Water soluble pesticides
   - Emulsifiable concentrates
4. Continue agitation and complete filling of the spray tank.

Do not mix ReREQUEST® with undiluted pesticides. Terminology on this label is consistent with the definitions approved by Subcommittee E-35.22 on Pesticide Formulations and Application Systems under the jurisdiction of ASTM Subcommittee E-35.

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS WARNING

**BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE—LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.**

- May be harmful if swallowed. May be harmful in contact with skin. Causes eye irritation. May be harmful inhaled. See Inside Panel for Additional Precautionary Statements.
Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded.

The directions on this label are believed to be reliable and must be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the “Company”) or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company’s election, one of the following:
1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
