This product is highly toxic to bees exposed to direct treatment or residues on blooming crops/plants or weeds. Do not apply this product or allow it to drift to blooming crops/plants in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

For field and systemic insect control of listed pests in turfgrasses (including sod farms), landscapes, ornamental fruit, and nut trees, and interior plantings.

**APPLICATION RATE**

For Merit 75 WSP Insecticide in tank mixtures with other products containing the active ingredients, see Panel for First Aid Instructions and Leaflet for Complete Precautionary Statements and Directions for Use.

STOP - READ THE LABEL BEFORE USE KEEP OUT OF REACH OF CHILDREN CAUTION

PARA US国务院: If sold no re herein indigena, no-use product hasta que la haga aplicar complementa las instrucciones que figura en la etiqueta. (TO THE USER: If you cannot read or understand English, do not use this product until the label has been fully explained to you.)

For foliar and systemic insect control of listed pests in turfgrass (including sod farms), ornamental landscapes, fruit and nut trees, and interior plant uses.

Actives Ingredient:
- Imidacloprid 1.8% (4-phenoxycarbonyl)-8-nitro-2-alkylbenzoic acid

Other Ingredients: N/a

Total: 12%

Keep out of reach of children in this container and away in a cool dry place but not below freezing (32°F).

Do not Reuse Pesticides From Container Except For Immediate Use.

EPA Reg. No. 622-1190

FIRST AID

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- In the event of a chemical burn, please refer to the burn section of this label.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything to eat or drink.

IF ON SKIN:
- Remove contaminated clothing and wash skin before reuse.
- Do not apply water to any burn area.

IF IN EYES:
- Hold eye open and clean gently and gently wash for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

In case of emergency call 911 to the State Emergency Services or Fire Department.

NOTE TO PERSONNEL: No specific antidotes available. Treat the patient symptomatically.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

Harmful if ingested, inhaled, or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust or vapor. Wash thoroughly with soap and water after each exposure and before eating, drinking, or smoking. Keep children off treated area until spray is dry.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

APPREHENDS, AND OTHER PERSONS WHO MUST HANDLE THIS PRODUCT FOR ANY USE COVERED BY THE WORKER PROTECTION STANDARD (WPS) 29 CFR Part 195 (a) - in general, agricultural plant uses, etc.

- Long-sleeved shirt and long pants
- Coveralls with sleeves and other rated protect all skin from direct contact with this product

ENGINEERING CONTROLS:

For all indoor applications which are less than 30 ˚F, 10% or more of the active ingredient remains in the pack after 12 hours. Applications of the active ingredient must be accomplished within 2 hours after the time they are added to the water. In cold weather, the active ingredient may be completely dissolved and ready for use in 15 minutes or less.

To achieve maximum effectiveness, the pest must be placed where the growing point of the target plant can absorb the active ingredient. The addition of a nitrogen containing fertilizer, where applicable, into the solution may enhance the uptake of the active ingredient. Application can be made to for continued control of plant insects. The use of a granular insecticide may enhance the time needed for the inner packet to dissolve completely.

AUGMENTATORY AND SUPPLEMENTAL TREATMENTS

Application Equipment for Outdoors

Do not use MERIT 75 WSP Insecticide in a tank-mix of products that contain Boron or release free chlorine. The resultant reaction of PVA and boron or free chlorine could form a nearby explosive.

Application Equipment for Indoor Use

The MERIT 75 WSP Insecticide should only be used for indoor applications after the label instructions have been completely explained to the user.

Agricultural Applications

The MERIT 75 WSP Insecticide can be used in any tank-mix with products that contain Boron or release free chlorine. The resultant reaction of PVA and boron or free chlorine could form a nearby explosive. The use of a granular insecticide may enhance the time needed for the inner packet to dissolve completely.

RESTRICTIONS:

Do not use MERIT 75 WSP Insecticide in a tank-mix with products that contain Boron or release free chlorine. The resultant reaction of PVA and boron or free chlorine could form a nearby explosive. The use of a granular insecticide may enhance the time needed for the inner packet to dissolve completely.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Harmful if swallowed, inhaled, or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust or vapor. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Keep children or other untrained persons away. Wash hands after handling. For pest control, use this product as directed.

PERSONAL PROTECTION EQUIPMENT (PPE)

- Use PPE as recommended on label if you come in contact with the active ingredient. The use of PPE is recommended on the label.
- Do not use this product unless you are wearing the appropriate PPE.
- Use PPE approved for use with this product.
- Use PPE as recommended on label if you come in contact with the active ingredient. The use of PPE is recommended on the label.
- Use PPE approved for use with this product.

USER SAFETY RECOMMENDATIONS

- Wash hands before eating, drinking, chewing gum, using tobacco, or handling hair or clothing.
- Remove clothing immediately if pesticide gets inside. Wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. Allow as much time as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment or waste materials.

- Do not apply more than a total of 8 oz of Merit 75 WSP per acre per year.
Do not apply more than 8.53 oz (0.4 lb of active ingredient) per acre per year.

RESTRICTIONS:

• Do not apply Merit 75 WSP Insecticide to areas which are water logged or saturated, which will not allow penetration into the root zone of the plant.

SITE

For Merit application, use in and around the perimeter of industrial and commercial buildings, in residential and recreational areas, and in municipal, city, state, national, and private wooded and landscaped areas.

SITE

For suppression of chinchbugs, make application prior to hatching of the first instar nymphs.

For optimum control of grubs, billbugs, annual bluegrass weevil, and E. n. (including glassy-winged sharpshooter) and other insects.

For control of rosy apple aphid, apply prior to leafrolling caused by the pest.

To calculate the higher rate range for multiple trees, add the DBH of the trees together and divide by the rate to be applied. (Example: 2 trees of 4.0 and 6.0 inch DBH, apply with 1.6 oz/200 sq ft. Combine and divide: (2 x 4.0 + 6.0) / 1.6 oz/200 sq ft = 1.0 oz/200 sq ft.

To calculate the lower rate range for multiple trees, add the DBH of the trees together and divide by the rate to be applied. (Example: 2 trees of 4.0 and 6.0 inch DBH, apply with 1.6 oz/200 sq ft. Combine and divide: (2 x 4.0 + 6.0) / 1.6 oz/200 sq ft = 1.0 oz/200 sq ft.

To determine the amount of Merit 75 WSP Insecticide required per acre will depend on tree size and number of foliage spread. The role of color is based on a standard of 400 gallons of liquid spray solution per acre for large trees.

To make foliar applications as pests begin to build before populations become extensive. Two applications at 10 to 14 day interval may be required to achieve control. Scout and retreat if needed.

To control late stage larvae.

### Directions for Use on Turfgrasses in Residential, Commercial, and Industrial Areas

**CROP**
- Annual bluegrass
- Bermudagrass
- Celebration
- Crabgrass
- Kentucky Bluegrass
- Tall fescue
- Zoysia

**PEST APPLICATION RATE**
- 1.6 oz (1 packet) per 300 gallons of water
- 2 oz (1 packet) per 300 gallons of water
- 3.2 oz (2 packets) per 300 gallons of water

**SITE**
- All turf (including home lawns, lawns and ornamental areas)
- Commercial lawns
- Parks
- Sports fields
- Golf courses

**PEST**
- Aphids
- Leafhoppers
- Thrips (foliage only)
- Whiteflies

**CONDITIONS:**
- Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of liability before using this product.
- Bayer CropScience LP does not warrant or guarantee the performance of the product. Bayer CropScience LP disclaims any liability whatsoever for special, incidental or consequential damages, resulting from the use or handling of this product.

### Directions for Application to Ornamentals in Residential, Commercial, and Industrial Landscape Areas

**CROP**
- Asiatic lilies
- Chrysanthemums
- Daisy
- Daylilies
- Geraniums
- Holly
- Iris
- Lilies
- Nicotiana
- Peonies
- Roses
- Stocks
- Sutera
- Tulips
- Violets

**PEST**
- Aphids
- Spittle bugs
- Whiteflies

**SITE**
- All flowering plants in the landscape
- Ornamentals

**PEST APPLICATION RATE**
- 1.6 oz (1 packet) per 12 to 48 inches of cumulative trunk diameter for trees intended to be treated
- 3.2 oz (2 packets) per 12 to 48 inches of cumulative trunk diameter for trees intended to be treated

**RESTRICTIONS:**
- For optimum control of grubs, billbugs, annual bluegrass weevil, and European crane fly larvae, make application prior to egg hatch of the target pest.

### Directions for Garden Treatment Preplanting

**SITE**
- All ornamentals

**PEST**
- Aphids
- Spittle bugs
- Whiteflies

**SITE**
- All flowering plants in the landscape
- Ornamentals

**PEST**
- Aphids
- Spittle bugs
- Whiteflies

LIMITED USE INSECTICIDE

For turf and systemic insect control of lawn pests in turfgrass (including sod farms), landscapes, ornamentals, fruit and nut trees, and other ornamental plants.

ACTIVE INGREDIENT:
imidacloprid, 1-(6-Chloro-3-pyridinyl)methyl]-N-nitro-2-imidazolidinimine ...................................................... 75%

TOTAL: 100%

OTHER INGREDIENTS: 25%

INSTRUCTIONS FOR USE:

Container Handling:
Nonrefillable container. Do not reuse or refill this container. Completely empty container into application equipment. Offer for recycling, if available.

Pesticide Disposal:
Recycle properly. Do not contaminate water, food, or feed by storage or disposal. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater.

ENVIRONMENTAL HAZARDS:
This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops/plants or weeds. Do not apply this product or allow it to drift to blooming crops/plants or weeds if bees are present. When applying this product, take precautions to avoid dust. Protect the soil from contamination by use of proper application equipment.

Engineering controls statements:
• Shoes plus socks
• Gloves
• Eye protection
• Respirator as needed

User should:
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Have person sip a glass of water if able to swallow.
• If in eyes, rinse slowly and gently with water for 15 - 20 minutes.
• Take off contaminated clothing.
• If on skin, rinse skin immediately with plenty of water for 15 - 20 minutes.
• Call a poison control center or doctor for treatment advice.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

WPS USES:
Applicators and other handlers who handle this product for any use covered by the Worker Protection Standard (40 CFR Part 170) - in general, only agricultural plant uses e.g., use in sod farms, must wear:
• Protective clothing
• Protective footwear
• Eye protection
• Respirator as needed

WPS uses require an employer to provide and ensure use of engineering controls where feasible. If engineering controls are not feasible, employers must ensure that witnesses are present during application.

Engineering controls statements:
• Shoes plus socks
• Protective clothing
• Protective footwear
• Eye protection
• Respirator as needed

Non-WPS USES:
Applicators and other handlers who handle this product for any use NOT covered by the Worker Protection Standard (40 CFR Part 170) - in general, only agricultural plant uses e.g., use in sod farms, must wear:
• Protective clothing
• Protective footwear
• Eye protection
• Respirator as needed

For MEDICAL and TRANSPORTATION Emergencies ONLY Call 24 Hours A Day STOP – READ THE LABEL BEFORE USE KEEP OUT OF REACH OF CHILDREN

CAUTION:

See Panel for First Aid Instructions and Booklet for Complete Precautionary Statements and Directions for Use.

Read the label and instructions carefully before using. Do not use unless label instructions can be read and followed. Keep out of reach of children. Do not contaminate water, food, or feed by storage or disposal. Do not walk through spilled material. Absorb spilled material with absorbing type material.

Precautionary Statements:

USER SAFETY RECOMMENDATIONS:

• Do not give anything by mouth to an unconscious person.

FIRST AID:

In case of emergency call toll free the Bayer Environmental Science Emergency Response Telephone 1-800-334-7577. Have a product container or label with you when calling a poison control center or doctor for treatment advice.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, inhaled, or absorbed through skin. Avoid contact with skin, eyes, or clothing. Avoid breathing dust or vapor. Wash thoroughly with soap and water after handling. Immediate medical attention required for treated area. Do not enter treated area until it is safe. Do not apply directly to water or to areas where water may enter a canal, stream, ditch, sewage system, pond, or other watercourse. Do not apply this product in a manner that will result in runoff. Do not contaminate water when disposing of equipment washwaters.

FIRST AID

KEEP OUT OF REACH OF CHILDREN

CAUTION

Do not apply this product in a manner that will result in runoff. Do not apply directly to water or to areas where water may enter a canal, stream, ditch, sewage system, pond, or other watercourse. Do not contaminate water when disposing of equipment washwaters.

Hazard and PPE

HAZARD

 Avoid contact with skin, eyes, or clothing. Avoid breathing dust or vapor. Wash thoroughly with soap and water after handling. Immediate medical attention required for treated area. Do not enter treated area until it is safe. Do not apply directly to water or to areas where water may enter a canal, stream, ditch, sewage system, pond, or other watercourse.

PPE

• Chemical resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene.
• Long-sleeved shirt and long pants are covered by the WPS, must wear:
• Shirt and pants
• Chemical resistant boots
• Non-slip socks or leggings
• Cap or helmet

OTHER INGREDIENTS:

Imidacloprid, 1-[(6-Chloro-3-pyridinyl)methyl]-

For foliar and systemic insect control of listed pests in turfgrass (including sod farms), landscape ornamentals, fruit and nut trees, and interior plantscapes

MERCHANDISE

(4 x 1.6 Oz packets)

6.4 Oz

Net Contents

EPA Reg. No. 432-1318 EPA Est. No. 33967-NJ-1

Do Not Remove Packets From Container Except For Immediate Use.
