Entrust[®] SC

EPA Reg. No. 62719-621

Special 2(ee) Recommendation[†]
(For Distribution and Use Within in Arizona and California)

For Suppression of Asian Citrus Psyllid on Citrus

ATTENTION

[†]This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to the container for Entrust[®] SC insecticide before applying. Carefully follow all precautionary statements and applicable use directions except as specified below.
- Use of Entrust SC according to this Section 2(ee) recommendation is subject to all use precautions and limitations imposed by the label affixed to the container for Entrust SC.

Directions for Use

Refer to product label for Entrust SC for General Use Precautions, Mixing Directions and Application Directions.

Apply Entrust SC to citrus at the rate of 8 to 10 fl oz per acre to suppress Asian Citrus Psyllid. Use a higher rate in the rate range for heavy infestations. The minimum retreatment interval is six days.

Read the label affixed to the container for Entrust SC and follow all use directions and restrictions for citrus.

This recommendation must be in the possession of the user at the time of application.
