

**SECTION 24(C) SPECIAL LOCAL NEED LABEL
FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON**

Lorox[®] DF

Agricultural Herbicide

EPA Reg. No. 61842-23 EPA SLN No. WA-140002

This label for Lorox DF expires and must not be distributed or used in accordance with this SLN registration after December 31, 2017.

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

Directions for Use

Crop Rotation Directions (Following LOROX[®] DF use on Lentils, Dry Peas and Chickpeas):

- Any crop registered for the rate of LOROX DF that was applied may be replanted immediately.
- Winter wheat and winter barley may be planted 4 months after application.
- Do not plant any other crop (including spring wheat, spring barley or canola) until 12 months after the last LOROX DF application as crop injury may result.

Restrictions/Precautions:

- Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours.
- Do not apply more than 1.25 pounds per acre of LOROX DF (0.625 pounds of active ingredient) per acre per year, if the treated field will be rotated into winter wheat or winter barley in the fall or winter and the annual rainfall average is less than 16 inches.
- This pesticide is toxic to fish and aquatic invertebrates. LOROX should not be used under this SLN label where impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program website at <http://agr.wa.gov/PestFert/NatResources/EndangSpecies.aspx>, or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information regarding aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.
- **Ground Water Advisory:** This chemical is known to leach through soil into ground water under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.
- **Surface Water Advisory:** Linuron may contaminate surface water through spray drift or under certain conditions from surface runoff into adjacent surface water bodies (ponds, lakes, streams, etc.). For several weeks post-application, linuron has a high potential to runoff when applied to fields with any of the following conditions: sloping land draining into nearby surface waters; very poorly to somewhat

poorly drained soils; areas with extremely shallow ground water; frequently flooded areas; fields with surface water canals or ditches; and highly erodible land cultivated with poor management practices.

WSDA Container Disposal Guidance:

- Completely empty the contents of the pesticide container into application equipment and apply to a labeled crop or site. The empty container may be disposed of in a sanitary landfill. Burning is not a legal method of container disposal in Washington.

For product information, call 1-800-525-2803. You may also contact 1-866-374-1975 for emergency medical treatment information.

This Section 24(c) SLN label contains new or supplemental instructions for use of this product which do not appear on the EPA-registered label. Follow the instructions carefully.

To the extent consistent with applicable law, Tessenderlo Kerley, Inc makes this product available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh the extent of potential injury associated with the use of this product. The decision to use or not to use LOROX DF must be made by each individual LOROX DF user and/or grower on the basis of possible crop injury from LOROX DF, the severity of weed infestation, the cost of alternative weed controls, and other factors. Read the Warranty and Limitation of Damages on the product label before buying or using this product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Warranty and Limitation of Damages on the product label.
