

CORNBELT FOAM MARKER DYE

CAUTION
KEEP OUT OF REACH OF CHILDREN

Avoid prolonged contact with skin. In case of contact, wash with water. Causes eye irritation. In case of contact with eyes, immediately flush with water for at least 15 minutes and get medical attention. Do not take internally. Keep from freezing.

CORNBELT FOAM MARKER DYE is a highly concentrated colorant to add to the foam solution tank to produce a colored and more highly visible foam. Applicators of fertilizers and pesticides will discover the ease of application when guided by a trail of brilliantly colored foam marks. Adverse field conditions such as sunbleached stubble, heavy crop residue, snow, sand, or alkaline areas will restrict the visibility of normal foam marks. However, by adding CORNBELT FOAM MARKER DYE to the foam solution tank, the applicator will eliminate this costly and frustrating situation.

CORNBELT FOAM MARKER DYE will not reduce the expansion capability of any foam solution. This product will not harm the soil or crop at labeled application rates.

DIRECTIONS

Add 1 oz. of CORNBELT FOAM MARKER DYE per 10 gallons of foam concentrate solution.

Notice - Read Carefully

Conditions of Sale: Van Diest Supply Co. (and seller) offer(s) this product for sale subject to, and buyer and all users are deemed to have accepted the following conditions of sale and warranty which may only be varied by written agreement of a duly authorized representative of Van Diest Supply Co.
