USE PRECAUTIONS

Read all directions and warranty of sale. The directions on this label are based on field experience and should be followed for most effective and safe use.

Since Cornbelt® Premium Crop Oil Concentrate Oil-Surfactant Adjuvant increases the activity of herbicides, care should be exercised in applying it with herbicides to new varieties or highly inbred lines or under certain weather conditions such as high temperatures and high humidity which tend to increase herbicide activity. The use of test areas is recommended if these conditions prevail. Due to the variation in natural water compositions, formulations by brand, and types of agitation, pretesting of the intended tank mixture is recommended.

DO NOT USE THIS PRODUCT ON CROPS GROWN FOR SEED. SOME INBREDS HAVE A VERY LOW TOLERANCE TO CHEMICALS AND THE USE OF THIS COMPOUND COULD RESULT IN INJURY TO A CROP GROWN FOR SEED.

Avoid contamination by water or other materials prior to use. Such contamination may interfere with the proper emulsion of the oil and possibly result in crop injury or failure of desired control.

PRECAUTIONARY STATEMENTS

Harmful if swallowed, avoid contact with skin. Do not get in eyes, on skin or clothing. Avoid breathing vapors or spray mist. Remove and wash contaminated clothing before reuse. Wash thoroughly before eating or smoking.
