

CORNBELT®
TANK AND EQUIPMENT CLEANER

FOR AGRICULTURAL TANKS AND EQUIPMENT
COMMERCIAL AND INDUSTRIAL USE ONLY

CAUTION
KEEP OUT OF REACH OF CHILDREN

This product is mildly corrosive. Avoid eye and skin contact. Avoid ingestion, breathing vapors or spray mist. Use protective clothing.

NOTE: Read and follow all label directions and cautions on all products used.

STATEMENT OF PRACTICAL TREATMENT

If Inhaled: Remove to fresh air, treat symptomatically. Seek immediate medical attention.

If Swallowed: Rinse out mouth and drink 2 glasses of water or milk. DO NOT INDUCE VOMITING.
Seek immediate medical attention.

If On Skin: Wash with soap and water. Seek immediate medical attention.

If In Eyes: Immediately flush with water for 30 minutes. Seek immediate medical attention.

GENERAL INFORMATION

Cornbelt Tank and Equipment Cleaner is a powerful superior grade, spray tank cleaner. Cornbelt Tank and Equipment Cleaner will clean, rinse and emulsify pesticide and adjuvant residues and bond them to the rinse solution to allow for complete rinsing and system purging with ordinary water. Cornbelt Tank and Equipment Cleaner is tolerant to hard water; this characteristic prevents spray tanks from accumulating high residue levels. Cornbelt Tank and Equipment Cleaner is totally soluble and compatible with all spray tank materials while also containing corrosion inhibitors. Cornbelt Tank and Equipment Cleaner neutralizes acid residues of pesticides, preparing the spray tank for the use of other products. Neutralization of residue spray materials will prevent damage from occurring to nontarget plants.

Manufactured for Van Diest Supply Co.

DIRECTIONS FOR USE

Large Volume Sprayers:

Cornbelt Tank and Equipment Cleaner is effective at dilution rates up to 1:400. One quart (.95L) of Cornbelt Tank and Equipment Cleaner will treat up to 100 gallons of water. One gallon (3.78L) will treat up to 400 gallons. Adjust the dilution rate as needed for individual conditions. Each cleaning situation will vary and adjustments will be necessary. Be certain to circulate Cornbelt Tank and Equipment Cleaner treated solution through the spray system for 5-10 minutes. Use a high pressure sprayer or hose to rinse all interior areas and spray tank walls. Purge hoses, spray lines and nozzles for approximately one minute. After cleaning, drain system and rinse all tank and spray areas.

Hand Held and Back-Pack Sprayers:

Use approximately one ounce of Cornbelt Tank and Equipment Cleaner per gallon of water, agitate thoroughly drain and follow with a clean water rinse.

NOTE

The use of Cornbelt Tank and Equipment Cleaner or other Tank Cleaners does not guarantee removal and/or neutralization of all residues. Some pesticides, such as 2,4-D and Dicamba, may leave persistent or hard-to-remove residues. Many variables exist which make consistent tank cleaning difficult (i.e. water quality, use of cleaning equipment, quantity and type of residue, age and condition of spray tank, spray lines, nozzles etc.). In order to ensure that all residues have been removed, apply a sample of the rinse water to sensitive plants (tomato, cotton, ornamentals, etc.) and after sufficient time, observe for wilting or severe stress. If stress occurs, repeat cleaning process and retest as above.

HANDLING AND STORAGE

PROTECT FROM FREEZING. Store above 32° F. Do not reuse empty container. Dispose of container in a safe manner in accordance with federal, state and local regulations. This product is mildly corrosive. Avoid contact with eyes and skin. Wear protective eye wear and clothing. For optimum storage stability, store at temperatures between 40° F (5° C) and 90° F (32° C). Do not store near oxidizing agents.

NOTICE-READ CAREFULLY

Conditions Of Sale: Van Diest Supply Co. (and Seller) offer(s) this product for sale subject to and buyer and all users are deemed to have accepted the following conditions of sale and warranty which may only be varied by written agreement of a duly authorized representative of Van Diest Supply Co.

Warranty Limitation: Van Diest Supply Co. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the use directions on the label subject to the inherent risks referred to below. Van Diest Supply Co. makes no express warranties. THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY and there are no warranties which extend beyond the description on the label hereof.

Inherent Risks: The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks associated with use. Buyer assumes all risks associated with use of this product contrary to label instructions.

Limitation of Liability: In no case shall Van Diest Supply Co. be liable for special, indirect or consequential damages resulting from the use or handling of this product and no claim of any kind shall be greater in amount than the purchase price of the products in respect of which such damages are claimed.
