

Section 2(ee) Recommendation

Date: May 8, 2012

Products: Abound® Flowable Fungicide
EPA Reg. No. 100-1098

Use: For control of crown and root rot diseases in peanuts.

States: TX

This is a recommendation of FIFRA Section 2(ee) as it relates to the use of Abound Flowable Fungicide for the control of the plant diseases *Aspergillus* crown rot (*Aspergillus niger*), Pythium damping-off (*Pythium* spp.), and suppression of stem rot/white mold (*Sclerotium rolfsii*) and *Cylindrocladium* black rot (*Cylindrocladium crotalariae*) in peanuts.

The user must refer to the federally approved label for the above noted product and read and follow all directions for use, restrictions, and precautions.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Apply 0.4 – 0.8 fl. oz/1000 row feet of Abound in-furrow at planting or in a 4-6" band at 100% emergence for suppression of various seed/seedling diseases. Apply in a minimum of 20 GPA. See directions and rates under GENERAL INFORMATION section.

Specific Use Restrictions:

1. Do not apply more than 49 fl. oz of product/A/season
2. Do not apply more than 0.8 lb a.i./A/season of azoxystrobin containing products
3. Do not apply within 14 days of harvest (14 day PHI)

The user must refer to the federally approved Abound Flowable Fungicide label and read and follow all directions for use, restrictions, and precautions.

The user should have this recommendation in its possession at the time of use.

This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the EPA.
