

Supplemental Labeling

Dow AgroSciences LLC 9330 Zionsville Road Indianapolis, IN 46268-1054 USA

RESTRICTED USE PESTICIDE

Because pronamide has produced tumors in laboratory animals, this product is for retail sale to and use only by Certified Applicators or persons under their direct supervision, and for only those uses covered by the Certified Applicator's certification.

Kerb* 50-W

EPA Reg. No. 62719-397

24(c) Special Local Need Registration SLN OR-990008

Weed Control in Fall, Carbon-Seeded Grasses (Orchardgrass, Tall Fescue, Perennial Ryegrass) Grown for Seed

(For Distribution and Use Only in the State of Oregon)

Expiration Date: This label is valid until December 31, 2006, or until otherwise amended, withdrawn, canceled, or suspended.

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Kerb* 50-W herbicide before applying. Follow all other applicable directions, restrictions, and precautions on the EPA-registered label.
- Use of Kerb 50-W according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the product container.

Active Ingredient:
 pronamide: 3,5-dichloro-N-
 (1,1-dimethyl-2-propynyl)-benzamide51.0%
Inert Ingredients49.0%
Total100.0%

CAUTION

Precautionary Statements

Hazards to Humans and Domestic Animals

Causes Moderate Eye Irritation

Avoid contact with eyes or clothing.

Personal Protective Equipment (PPE):

Applicators and other handlers must wear:

- Coveralls over short-sleeved shirt and short pants
- Waterproof gloves
- Chemical-resistant footwear plus socks
- Chemical-resistant headgear for overhead exposure
- Chemical-resistant apron when cleaning equipment, mixing or loading

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/ maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

When handlers use enclosed cabs or aircraft in a manner that meet the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

User Safety Recommendations

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

First Aid

If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Note: Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. You may also contact 1-800-992-5994 for emergency medical treatment information.

Environmental Hazards

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

Directions for use

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Requirements:

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water, is:

- Coveralls over short-sleeved shirt and short pants
- Waterproof gloves
- Chemical-resistant footwear plus socks
- Chemical-resistant headgear for overhead exposure

General Information

Kerb* 50-W herbicide has been demonstrated to be effective for the control and/or suppression of undesirable seedling grasses.

NOTE: *Due to the close proximity of native prairie remnants to agricultural areas and the potential for these areas to be adversely affected by herbicides through drift or possible runoff/soil movement, Kerb 50-w herbicide should not be applied directly to native prairie habitats. It is recommended that dosage rates be maintained at the lower end of the use rate range (if effective seedling control can be achieved) in a further effort to lessen potential impacts to endangered species.*

WEEDS CONTROLLED (SUPPRESSION)

Kerb 50-W herbicide will provide preemergence and postemergence control/suppression of the following seedling weeds when used according to label directions:

Bromus Species	<i>Bromus species</i>
Wild Oat	<i>Avena species</i>
Annual Ryegrass	<i>Lolium multiflorum</i>
Volunteer Orchardgrass	<i>Dactylis glomerata.</i>

Dosage

Prior to application of Kerb 50-W, ensure that an adequate activated carbon band (one inch wide or greater) to absorb the herbicide applied is present on a well-prepared, firmly packed seedbed that is free of clods. After seeding/carbon banding operation, apply a single application of Kerb 50-W at 0.25 to 0.5 lb (0.125 to 0.25 lb ai) per acre tank mixed with a reduced rate of diuron. Application must be made before the emergence of the seeded crop and before rainfall dissipates the carbon band applied. Consult your local Extension Service agent or crop consultant for specific application rate recommendations for Kerb, diuron, and the activated charcoal on a field by field basis. **The grower assumes all risks of crop injury or stand loss when unforeseen environmental conditions (such as heavy rain soon after application), poor seedbed preparation or application rates/positioning, result in crop damage.** The greatest risk of injury or stand loss occurs when applications are made to poor drained soils and heavy rains occur soon after application.

Do not apply Kerb 50-W to sandy or gravelly areas or fields under stress due to drought, flooding, excessive fertilizer, soil salts, cold temperatures, hail, injury from previously applied pesticides or injury due to insects or diseases, as excessive injury may result.

Specific Use Restrictions

The following use restrictions must be observed when Kerb 50-W is used as recommended on this label:

- Read and observe all label directions before using. All applicable directions, restrictions, Worker Protection Standard requirements and precautions on the EPA registered product label must be followed.
- **Do not** graze livestock in treated fields within 180 days of application.
- **Do not** apply Kerb 50W herbicide within 180 days of harvesting grass hay.
- Kerb 50-W should only be applied using ground application equipment.
- **Chemigation: Do not** apply this product through any type of irrigation system.
