

# Supplemental Labeling

Dow AgroSciences LLC      9330 Zionsville Road      Indianapolis, IN 46268-1054 USA

## Laredo\* EC Fungicide

EPA Reg. No. 62719-412

EPA 24(c) Special Local Need Registration SLN OR-000002  
(For Distribution and Use Only in the State of Oregon)

**For Rust (*Puccinia* spp.) Control in Perennial Grasses Grown for Seed and  
For Powdery Mildew (*Erysiphe graminis*) Control in  
Kentucky Bluegrass Grown for Seed**

**Expiration Date:** This label is valid until December 31, 2006, or until otherwise amended, withdrawn, canceled, or suspended.

### ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Laredo\* EC fungicide before applying. Follow all other applicable directions, restrictions, and precautions on the EPA-registered label.
- Use of Laredo EC according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the product container.

### Active Ingredient

myclobutanil: <i>a</i> -butyl- <i>a</i> -(4-chlorophenyl)-1H-1, 2,4, triazole-1-propanenitrile .....	25%*
Inert Ingredients .....	75%
Total .....	100%

\*Equivalent to 2 lbs. active ingredient per gallon.

### Keep Out of Reach of Children

## DANGER      PELIGRO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

### First Aid

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Hot Line Number:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-992-5994 day or night, for emergency treatment information.

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage. Contains petroleum distillate, vomiting may cause aspiration pneumonia.

---

## Precautionary Statements

---

### Hazards to Humans and Domestic Animals

# DANGER

**Corrosive • Causes Irreversible, Eye Damage • Causes Skin Burns • Harmful If Swallowed, Inhaled Or Absorbed Through The Skin**

**Do not swallow, get in eyes, on skin or breath spray mist.**

### Personal Protective Equipment (PPE):

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category G on the EPA chemical resistance category selection chart.

#### Applicators and other handlers must wear:

- Coveralls over long-sleeved shirt and long pants
- Chemical-resistant gloves, such as barrier laminate or Viton  $\geq 14$  mils
- Chemical-resistant footwear plus socks
- Protective eyewear
- Chemical-resistant headgear for overhead exposure
- Chemical-resistant apron when cleaning equipment, mixing or loading

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

### User Safety Recommendations

#### Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

### Environmental Hazards

For terrestrial uses, do not apply directly to water or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift or runoff from areas treated.

### Physical or Chemical Hazards

**Combustible:** Do not use, pour, spill or store near heat or open flame.

---

## Directions for Use

---

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

## Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of **24** hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water, is:

- Coveralls over long-sleeved shirt and long pants
- Chemical-resistant gloves, such as barrier laminate or Viton  $\geq$  14mils
- Chemical-resistant footwear plus socks
- Protective eyewear
- Chemical-resistant headgear for overhead exposure

Laredo\* EC fungicide is a systemic curative and protectant fungicide. For best results applications should be made on a regularly scheduled protectant spray schedule, which starts at the first sign of disease development and continues until the threat of further disease development is past. Apply 8 to 12 fluid ounces (0.125 to 0.187 pounds active) of Laredo EC fungicide in a minimum of 20 gallons of water per acre for ground application or, in a minimum of 10 gallons of water per acre for aerial application. Begin applications in early spring or when disease symptoms are noticeable and continue applications on a 14- to 21-day application schedule.

### Crop

Bluegrass	<i>Poa spp.</i>
Fescues	<i>Festuca spp.</i>
Orchardgrass	<i>Dactylis spp.</i>
Perennial Ryegrass	<i>Lolium spp.</i>
Wheatgrass	<i>Agropyron spp.</i>

Target Pest	
Rusts	<i>Puccinia spp.</i>
Powdery Mildew	<i>Erysiphe graminis</i>

### Environmental Hazards

Do not apply directly to water, or to areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwater or rinsate. Do not apply when weather conditions favor drift or runoff from areas treated.

**Groundwater:** This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

**Surface Water:** This chemical can contaminate surface water through spray drift. Under some conditions, this chemical may also have a high potential for runoff into surface water (primarily via dissolution in runoff water) for several months postapplication. These include poorly draining or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, areas overlying extremely shallow groundwater, areas with in-field canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetated filter strips, and areas over-laying tile drainage systems that drain to surface water.

## Restrictions

- **Do not** apply more than 48 fluid ounces product (0.75 pounds active) per acre per year.
- **Do not** graze in treated areas for one year (365 days) following application.
- **Chemigation: Do not** apply this product through any type of irrigation system.
