AFFECT GC delivers peace of mind by reducing chemical trespass and drift.

**Components exempt from tolerance under 40CFR 180.**

**Recommended Rates**

As a general guide, use 1 to 2 oz. per 100 gal. of spray solution. Higher spray pressure or greater agitation requires higher rates to maintain good drift control. If unacceptable drift is still occurring, increase amount of AFFECT GC in increments of 1 oz. per 100 gal. of spray solution. For more specific rates, refer to the following Rate Chart:

**Rate Chart**

**Spray Pressure**

**Nozzle Configuration**

**Amount of AFFECT GC**

- **Ground Application**
  - Standard or Drift Reduction Nozzles
  - 1-4 oz. per 100 gal

- **Aerial Application**
  - Straight Back
  - 4 oz. per 100 gal
  - 45° Angle Back
  - 1-4 oz. per 100 gal

- **Hand Sprayers**
  - Hand Wand
  - 1 tbsp per 1 gallon
  - 1 tsp per 2 gallons

**Storage and Disposal**

**Do not allow to freeze. Do not introduce water into container.**

**Storage:** Store in a dry place. Keep containers tightly closed. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment wash water, spray disposal wastes or by cleaning the equipment. Do not store near food or feed products. Do not use or store near open flame or with oxidizing agents.

**Disposal:** Do not reuse product containers. Triple rinse (or equivalent), then offer for recycling at an ACRC site (go to https://acrcycle.org for locations) or by reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by local, state, and federal regulations.

**Conditions of Sale and Warranty**

The Directions for Use of this product are based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherent with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of manufacturer or the Seller. All such risks shall be assumed by the Buyer. The manufacturer or seller makes no other expressed or implied warranty of fitness or merchantability of any other expressed or implied warranty. In no case shall the seller be liable for consequential, special, or indirect damage resulting from the use or handling of this product. The manufacturer and the Seller do not assume responsibility for the performance of this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of the manufacturer.

**DIRECTIONS FOR USE**

**MIXING INSTRUCTIONS**

**SHAKE WELL OR RECIRCULATE BEFORE USE**

AFFECT GC is very concentrated and performs effectively at ultra low use rates; as low as 1-2 oz per 100 gal of water. Start with low dosage rates and increase as needed. A thickened or "stringy" solution indicates that too much AFFECT GC has been used.

1. Select proper dosage for the spraying operation
2. Fill sprayer 1/3 to 1/2 full of water
3. Add dry flowables or dispersible granules
4. Add emulsifiable concentrates
5. Continue to agitate until tank is 3/4 full
6. Either (1) inject AFFECT GC liquid into the suction side of the feeder or recirculating pump to obtain adequate dispersion of the polymer throughout the pesticide solution, or (2) slowly add AFFECT GC liquid to the agitating tank mix at the area of highest turbulence.
7. Continue to agitate mix tank for at least 3-5 minutes for proper dispersal.

**USE PRECAUTIONS:** The degree of drift hazard varies with the type of pesticide, application conditions, and vegetation near the sprayed area. Consult your local agricultural advisor. Remember, pesticide drift is no accident. Common sense and sound application technology must be followed when spraying pesticides. AFFECT GC will reduce, but not totally eliminate drift.

**STORAGE AND DISPOSAL**

**Do not allow to freeze. Do not introduce water into container.**

**Storage:** Store in a dry place. Keep containers tightly closed. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment wash water, spray disposal wastes or by cleaning the equipment. Do not store near food or feed products. Do not use or store near open flame or with oxidizing agents.

**Disposal:** Do not reuse product containers. Triple rinse (or equivalent), then offer for recycling at an ACRC site (go to https://acrcycle.org for locations) or by reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by local, state, and federal regulations.

**PRINCIPAL FUNCTIONING AGENTS**

| Polyvinyl polymer emulsion | 100% |

**WARNING**

**Read entire label before using**

**KEEP OUT OF REACH OF CHILDREN**

**GHS CLASSIFICATIONS**

**Health - Acute Toxicity (Oral), Category 5**

**Acute Toxicity (Dermal), Category 5**

**Skin Irritation, Category 3**

**Eye Irritation, Category 2B**

**PRECAUTIONARY STATEMENTS**

Wash thoroughly with soap and water after handling. Read and follow all precautionary statements on the accompanying pesticide label(s).

**FIRST AID**

**CALL A POISON CONTROL CENTER OR DOCTOR IF YOU FEEL UNWELL**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth.
