## GENERAL INFORMATION

SPEEDWAY is a water conditioner concentrate that replaces ammonium sulfate in glyphosate applications by neutralizing antagonizing metal cations. SPEEDWAY is compatible with most ammonium nitrogen sources, including 32-0-0, 10-34-0 and ammonium sulfate. In some cases, additional ammonium nitrogen may be added to the spray tank to meet specific pesticide label requirements. SPEEDWAY contains a spray activator technology but does not substitute for a surfactant. If the pesticide label requires a surfactant, use a high quality surfactant at the recommended rate. Do not use with sulfonyleurea herbicides. Maintain good equipment hygiene by cleaning pumps, lines and tanks after using this product.
