Active Ingredient: By Wt.
Bifenthrin: (2 methyl[1,1'-biphenyl]-3-yl)
methyl 3-(2-chloro-3,3,3-trifluoro-1-propenyl)-
2,2-dimethyl-cyclopropanecarboxylate* ........25.1%
Other Ingredients:** ........................................................................74.9%
100.0%

*Cis isomers 97% minimum, trans isomers 3% maximum.
**Contains xylene range aromatic solvents.
This product contains 2 pounds active ingredient per gallon.

Environmental Hazards
This pesticide is extremely toxic to fish and aquatic invertebrates. Use with care when applying in areas adjacent to any body of water. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not make applications when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

The use of bifenthrin is prohibited in areas that may result in exposure of endangered species to bifenthrin. Prior to use in a particular county contact the local extension service for procedures and precautions to use to protect endangered species.

DIRECTIONS FOR USE
AGRICULTURAL USE REQUIREMENTS
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: Coveralls, Chemical-resistant gloves, such as Barrier Laminate or Nitrile Rubber or Neoprene Rubber or Viton, shoes plus socks.
It is a violation of Federal law to use this product in a manner inconsis-
tent with its labeling. This 24(C) SLN label and the federal label for
this product must be in the possession of the user at the time of
pesticide application. Follow all applicable directions, restrictions
and precautions on this Section 24(c) SLN label and the
main EPA-registered label.
Do not apply this product in a way that will contact workers or other
persons, either directly or through drift. Only protected handlers
may be in the area during application. For any requirements specific to your
State or Tribe, consult the agency responsible for pesticide regulation.

APPLICATION INSTRUCTIONS

General: Apply Brigade 2EC at the rate of 3.9 to 6.4 ounces (0.06 to
0.1 lb. active) per acre. Apply in a minimum of 5 gallons of water per
acre by air or in a minimum of 20 gallons of water by ground.
Crop/Site: Alfalfa grown for seed.
Target Pest: Aphids, Lygus Bugs, Spider Mites and Weevil
Application timing: Make aerial or ground applications when the
wind velocity favors on target product disposition (approximately 3 to
10 MPH). Do not apply when wind velocity exceeds 15 MPH.

This product is highly toxic to bees exposed to direct treatment or
residues on blooming crops or weeds. Do not apply this product to
blooming alfalfa. Apply as a pre-bloom or post-bloom spray only.

Note: Information is provided on use of the 2-ounce rate during bloom
to minimize the hazard to pollinators. While use of the 2-
ounce rate is legal, FMC does not recommend the 2-ounce rate,
since efficacy may not be as good as the full label rate. Users wishing
to apply the low rate during bloom must be willing to accept reduced
product efficacy, in order to protect pollinators.

Rate: Use 3.9 to 6.4 ounces (0.06 to 0.1 lb. active) per acre.

Restrictions:
Do not apply more than 6.4 ounces (0.1 lb. active) per acre per
treatment. Do not make more than 3 applications in a crop year.
Maintain a minimum of 21 days between Brigade 2EC treatments.
Do not apply Brigade 2EC or allow it to drift to blooming crops or
weeds while bees are actively visiting the treated area.

Low humidity and high temperatures increase the evaporation rate
of spray droplets and, therefore, the likelihood of increased spray drift
to aquatic areas. Avoid spraying during conditions of low humidity
and/or high temperature. Do not make aerial or ground applications
during temperature inversions.

Do not make aerial or ground applications to alfalfa grown for seed if
heavy rainfall is imminent.

Do not apply by ground equipment within 25 feet, or by air within 150
feet of lakes, reservoirs, rivers, permanent streams, marshes or
natural ponds, estuaries, drainage ditches, and commercial fish farm
ponds. Increase the buffer zone to 450 feet when ultra-low volume
(ULV) application is made.

Do not apply through chemigation.

SPECIAL ALFALFA USE RESTRICTIONS

The pesticide applicator, the producer of Alfalfa seed and the seed
conditioner must be aware that use of this product according to this
labeling is deemed a non-feed/non-food use by the Oregon
Department of Agriculture, and is regulated by Oregon Administrative
Rule (OAR) 603-057-0535, Pesticide Use on Crops Grown For Seed.

If the applicator of this pesticide is not the producer, the applicator
must provide a copy of this labeling to the producer of the crop.
Producers of this crop who use this product, or cause the product to
be used on a field they operate, must provide a copy of this pesticide
label to the seed conditioner.

This pesticide does not have an established pesticide residue
tolerance for this crop. Consequently, no portion of this seed crop
may be used or distributed for food or feed for 1 year (365 days) after
the last application of this product. This restriction pertains to, but not
limited to, green chop, forage, hay, pellets, meal, whole seed,
cracked seed, straw, roots, bulbs, foliage or seed screenings, and to
the grazing of the crop field, stubble or regrowth. All seed screenings
shall be disposed of in such a manner that the screenings cannot be
distributed or used for food or feed purposes, as indicated in OAR
603-057-0535. Additional regulations concerning seed screenings are
stated in OAR 603-057-0535.

Any seed from a field treated with this pesticide shall bear specific
and conspicuous container labeling, or if shipped in bulk, on the
shipment invoice or bill of lading. The labeling shall contain the
following statement:

“This seed was produced using one or more products for which the
United States Environmental Protection Agency has not established
pesticide residue tolerances. This seed, in whole, as sprouts, or in
any form, may not be used for human consumption or animal feed.
Failure to comply with this condition may violate requirements of the
Federal Food and Drug Administration, the Oregon Department
of Agriculture and other regulatory agencies.”

Conditions of Sale and Limitation of Warranty and Liability:

NOTICE: Read the entire Directions for Use and Conditions of Sale
and Limitation of Warranty and Liability before buying or using this
product. If the terms are not acceptable, return the product at once,
unopened, and the purchase price will be refunded.

The Directions for Use of this product must be followed carefully.
It is impossible to eliminate all risks inherently associated with
the use of this product. Crop injury, ineffectiveness, or other
unintended consequences may result because of such factors as
manner of use or application, weather or crop conditions beyond
the control or FMC or Seller. All such risks shall be assumed by
Buyer and User, and Buyer and User agree to hold FMC and Seller
harmless for any claims relating to such factors.

Seller warrants that this product conforms to the chemical
description on the label and is reasonably fit for the purposes
stated on the Directions for Use when used in accordance with
the directions under normal conditions of use. EXCEPT AS
WARRANTED BY THIS LABEL, FMC MAKES NO WARRANTIES
OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR
PURPOSE, NOR ANY OTHER EXPRESS OR IMPLIED
WARRANTIES WITH RESPECT TO THE SELECTION, PURCHASE,
OR USE OF THIS PRODUCT. Any warranties, express or implied,
having been made are inapplicable if this product has been used
contrary to label instructions, or under abnormal conditions, or
under conditions not reasonably foreseeable to (or beyond the
control of) seller or FMC, and buyer assumes the risk of any such
use.

To the extent consistent with applicable law FMC or seller shall not be
liable for any incidental, consequential or special damages resulting
from the use or handling of this product. TO THE EXTENT
CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY
OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF
FMC AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES
OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF
WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY
OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF
THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE
PRICE OF THE PRODUCT OR, AT THE ELECTION OF FMC OR
SELLER, THE REPLACEMENT OF THE PRODUCT.

This Conditions of Sale and Limitation of Warranty and Liability
may not be amended by any oral or written agreement.
