DUPONT™ HARMONY® SG HERBICIDE (with TotalSol® soluble granules)

EPA Reg. No. 352-633

PRE-PLANT/PRE-EMERGENCE BURNDOWN APPLICATIONS OF DUPONT™ HARMONY® SG HERBICIDE (with TotalSol® soluble granules) TO FIELDS PLANTED TO FIELD CORN OR SOYBEANS

DIRECTIONS FOR USE

DuPont™ HARMONY® SG Herbicide (with TotalSol® soluble granules) may be applied as a preplant or pre-emergence burndown treatment for additional control of certain broadleaf weeds in fields planted to field corn or soybeans.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Refer to the HARMONY® SG label and technical bulletins for full descriptions of use restrictions.

RESTRICTION

This product is limited to ground application only in the State of New York. Do not apply by air in that state.

PRE-PLANT/PRE-EMERGENCE BURNDOWN APPLICATIONS

For burndown of emerged weeds, broadcast applications of HARMONY® SG may be applied anytime before field corn and soybean plants emerge. HARMONY® SG may be used in combination with other suitable pre-plant/pre-emergence herbicides registered for use in field corn and soybeans (such as "Roundup Ultra"1).

Apply HARMONY® SG at 0.45 to 0.9 ounce per acre for improved control of many broadleaf weeds.

Read and follow all manufacturers' label instructions for companion herbicides. If those instructions conflict with this label, do not tank mix the herbicide with HARMONY® SG.

SPRAY ADDITIVES

Consult your agricultural dealer, applicator, or DuPont representative for a listing of recommended surfactants. Antifoaming agents may be used if needed. Unless otherwise specified, add a DuPont recommended non-ionic surfactant having at least 80% active ingredient at 1 to 2 qt per 100 gal of spray solution (0.25 to 0.5% v/v). Refer to "TANK MIXTURES" section of the HARMONY® SG label for specific adjuvant recommendations when HARMONY® SG is used in a tank mix.

Do not use low rates of liquid nitrogen fertilizer solution as a substitute for surfactant.

IMPORTANT

BEFORE USING HARMONY® SG HERBICIDE, READ AND CAREFULLY NOTE THE CAUTIONARY STATEMENTS AND OTHER PROCEDURAL INFORMATION APPEARING ON THE EPA REGISTERED LABEL OR ON OTHER SUPPLEMENTAL LABELS.

This bulletin contains new or supplemental instructions for use of these products in combination which does not appear on the package label. Follow the instructions carefully.

This labeling must be in the possession of the user at the time of pesticide application.
