| ACTIVE INGREDIENT: | % BY WT. |
| Halosulfuron-methyl, methyl 3-chloro-5-(4,6-dimethoxy-pyrimidin-2-ylcarbamoylsulfamoyl)-1-methylpyrazole-4-carboxylate..... | 75.0% |
| OTHER INGREDIENTS | 25.0% |
| | TOTAL 100.0% |

**KEEP OUT OF REACH OF CHILDREN
 CAUTION**

Do not use this product past the expiration date of December 31, 2025

ENVIRONMENTAL HAZARDS

This product is toxic to non-target vascular plants. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls
- Chemical-resistant gloves made of any waterproof material
- Shoes plus socks

DIRECTIONS FOR USE

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

| CROP | OZ/ACRE | DIRECTIONS FOR USE |
|--------------------------------|---------|---|
| PEPPERS, BELL/CHILE (30) | 1/2 - 1 | Apply uniformly with ground equipment in a minimum of 20 gal of water per acre. Direct-seeded: <ul style="list-style-type: none"> • Postemergence - Apply SANDEA as a directed spray 28 days after planting or when the plants have reached a minimum of six inches in height, but prior to flowering. Use lower rates on lighter textured soils with low organic matter. Transplanted: <ul style="list-style-type: none"> • Post-transplant - Apply SANDEA as a directed spray 21 days after transplanting or when the plants have reached a minimum of six inches in height, but prior to flowering. |

| | | |
|---|---------|--|
| | 1/2 - 1 | Direct-seeded and Transplant: <ul style="list-style-type: none"> • Row Middle/Furrow Applications - Apply SANDEA between rows of direct-seeded or transplanted peppers while avoiding contact of the herbicide with the planted crop. If plastic is used on the planted row, adjust equipment to keep the application off the plastic. Reduce rate and spray volume in proportion to area actually sprayed. |
| | 1 | Rope-wick or Wiper Applications: <ul style="list-style-type: none"> • Row Middle/Furrow Application – Apply using a minimum of 1 oz per acre. |
| PRECAUTIONS: <ul style="list-style-type: none"> • Not all pepper varieties have been tested. • Consult “Use Precautions” and “For Optimum Results” for important usage information. RESTRICTIONS: <ul style="list-style-type: none"> • Do not apply more than 2 applications or 2 oz/A of product by weight (0.094 lb a.i./acre) per 12 month period. (includes applications to the crop and to row middle/furrows). | | |
