

TRI E-Z

LOW RATE DRY CONCENTRATE ENHANCED AMS BLEND

Principal Functioning Agents:

Monosodium sulfate, ammonium sulfate, 2-hydroxy-1,2,3-tricarboxylic acid..... 100%

This product contains ammonium sulfate.

CAUTION

KEEP OUT OF REACH OF CHILDREN

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens if present, after the first 5 minutes, then continue rinsing eye. Have the product container with you when calling a poison control center or doctor, or going for treatment.

GENERAL INFORMATION

TRI E-Z is an ammonium sulfate based product, enhanced by blending with additional acids, and acids salts, to produce the performance equivalent to ammonium sulfate, at a lower use rate.

TRI E-Z is formulated as a low rate water conditioner, to reduce the interference of hard water ions (such as calcium, magnesium, and including iron) designed to perform with all formulations of glyphosate.

TRI E-Z does not contain any surfactant, and may be used on cotton for glyphosate sprays.

TRI E-Z conditions water to maximize herbicide performance, by reducing pH, complexing, and sequestering hard water ions. Glyphosate, dicamba, 2,4-D amine, and other weak acid and salt base herbicides, will be enhanced by the addition of **TRI E-Z** to the spray mixture.

TRI E-Z Amount	pH
None	7.1
0.25 lbs/100 gal.	2.9
0.50 lbs/100 gal.	2.5
0.75 lbs/100 gal.	2.4
1.00 lbs/100 gal.	2.3

TRI E-Z will reduce the pH of the spray solution, and should not be used with sulfonylurea herbicides, and other pesticides, which warn against acidifying spray solutions.

DIRECTIONS FOR USE

TRI E-Z may be used for pesticides applied to all crops for agriculture, non-crop, industrial, right-of-ways, forestry, turf and ornamentals, that restrict the use of products that lower the pH of the spray solution.

Always add **TRI E-Z** may be used for applications made by air or ground. Do not use in aquatic applications.

MIXING or USE RATES

TRI E-Z may be used as an ammonium sulfate replacement, with pesticides that recommend the addition of ammonium sulfate. Two pounds of **TRI E-Z** has demonstrated in field trials, to give results equivalent to 8.5 pounds of ammonium sulfate.

Suggested use rates -

Herbicides, Desiccants and Defoliants:

2 to 4 lbs. per 100 gallons of spray mixture.

pH Reduction for Insecticides:

0.25 to 1.0 lb. per 100 gallons of spray mixture.

2 pounds may be used if weeds are actively growing and are the proper treatment size. Use higher rates when weeds are becoming larger and environmental stresses are present.

Fill spray tank 1/2 full of water and begin agitation. Add the desired amount of **TRI E-Z** to spray tank first. Continue agitation and add pesticides to spray tank while continuing to fill.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food or feed by storage and disposal. Store in a cool, dry area in the original container. Do not reuse container. Keep container tightly closed when not in use.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into spray tank, and if feasible, rinse during mixing and loading, then offer container for recycling or dispose of in a sanitary landfill. Dispose of container in a safe manner in accordance with federal, state, and local regulations. Do not contaminate soil or water when cleaning equipment, or disposing of equipment wash-waters.

LIMITATION OF LIABILITY AND WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
