Other Ingredients: .................................................................................................... 99.60%
Total: ..................................................................................................................... 100.00%

EPA Reg. No. 499-540

KEEP OUT OF REACH OF CHILDREN
CAUTION/PRECAUCION
Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

Refer to full label for First Aid, Precautionary Statements, Directions For Use, and Conditions of Sale and Warranty.
In case of an emergency endangering life or property involving this product, call day or night 1-800-832-HELP (4357).

Net Contents:
Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION. Contains Petroleum Distillate. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

Physical or Chemical Hazards

Contents under pressure. DO NOT use or store near heat or open flame. DO NOT puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions

• Cover aquariums and fish bowls and remove birds from area prior to treating.

• Vacate areas to be treated, and DO NOT reoccupy or contact treated surfaces until dry.

• DO NOT apply in food/feed areas of commercial structures (i.e. food/feed handling facilities). In the home, cover or remove exposed food in the treatment area prior to application. Cover all food processing surfaces and utensils in the treatment area or thoroughly wash them before use.

• DO NOT treat pets with this product. Treat pets with a product registered for use for flea control on animals in conjunction with this treatment.

• When applying to mattresses, DO NOT apply to bed linens. Remove bed linens before applying. DO NOT apply to entire mattress; apply only to edges, tufts, folds, sides, and seams.

FIRST AID

If on skin

• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

If swallowed

• Immediately call a poison control center or doctor.
• DO NOT induce vomiting unless told to do so by a poison control center or doctor.
• DO NOT give any liquid to the person.
• DO NOT give anything by mouth to an unconscious person.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact BASF Corporation for emergency medical treatment information: 1-800-832-HELP (4357).

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

Pesticide Storage

Store in a cool, dry area away from heat or open flame and inaccessible to children.

Pesticide Disposal

Wastes resulting from use of this product may be disposed of on-site or at an approved waste disposal facility. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representatives at the nearest EPA Regional Office for guidance.

Container Handling

DO NOT puncture or incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

In Case of Emergency

In case of large-scale spill of this product, call:

• CHEMTREC 1-800-424-9300
• BASF Corporation 1-800-832-HELP (4357)

In case of medical emergency regarding this product, call:

• Your local doctor for immediate treatment
• Your local poison control center (hospital)
• BASF Corporation 1-800-832-HELP (4357)

Product Information

This product kills fleas and prevents flea infestations for a full season. Adult fleas may be seen in the treated areas when brought in on infested animals or when adults emerge from pupal cases; however, populations will not develop in the treated area. This product may also be used to kill bed bugs and ticks by contact and aids in preventing bed bug hatch.
In transportation equipment, certain plastics may be whitened or dulled. Apply only to carpets and cloth upholstered areas or test an inconspicuous area before treating.

NOTICE: This product has been tested on several types of carpet, fabric, and other household furnishings without adverse affects. In a few instances, waxed surfaces have been whitened or dulled. Holding the can 36 inches away from the target surface normally prevents any whitening from occurring. Because of the wide variety of floor types and finishes, treat a small inconspicuous area before treating the entire area. Avoid contact with antique finishes.

Application Instructions

SHAKE WELL BEFORE USE! Use at the rate of 20 ounces [one can] for up to 2,625 square feet (10 ounces [half can] for up to 1,300 square feet), applying in a sweeping motion at a speed of 1 foot per second. DO NOT apply more than 20 ounces per 2,625 square feet.

Fleas
Treat infested areas or potentially infested areas, including rugs, carpets, upholstered furniture, pet beds, pet resting areas, room edges, and around and under furniture or other stored items. Hold can at arm’s length and direct spray toward the area to be treated. Use a sweeping motion to apply product and back away from treated area while holding the can 36 inches away from the surface being treated. An area of 80 to 100 square feet can be treated in approximately 10 seconds with this product. When treating upholstered furniture, treat under cushions and areas where flea development occurs.

Bed Bugs
Kills bed bugs. Apply where bed bugs harbor or are suspected of traveling. Treat areas such as wall junctions and floors, beneath floor coverings and carpets, closets, shelves, curtains, furniture (behind, under, and/or inside furniture, including upholstered furniture), headboards, picture frames, and box springs. Allow surfaces to dry before reoccupying treated area. When treating furniture (i.e. sofas and chairs), DO NOT apply to flat surfaces where prolonged human contact will occur. When treating mattresses, remove linens before application. Apply to edges, tufts, folds, sides, and seams. DO NOT apply directly to bed linens or other bed surfaces that come in direct, prolonged contact with occupants of the bed. Allow mattresses to dry before bed is re-made and used. When treating luggage, apply only to empty luggage. Direct product into luggage pockets, seams, folds, and around wheels. Areas of rooms where luggage is stored may also be treated. Check for potential staining issues before treating by testing a small, inconspicuous area of the item to be treated. Reapply as necessary but not more than once a day.

Ticks
Apply to infested nonporous areas and egg laying sites or other nonporous areas where ticks are suspected.
Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.
