

2(ee) Recommendation

Use information in accordance with Section 2(ee) of FIFRA

DUPONT™ EXIREL® INSECT CONTROL

EPA Reg. No. 352-859

FOR CONTROL OF CITRUS THRIPS AND PROTECTION OF CITRUS FRUIT FROM THRIPS DAMAGE IN CITRUS IN THE STATES OF CALIFORNIA AND ARIZONA

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe; consult the agency responsible for pesticide regulation. Do not apply this product in any way that will contact workers or other persons; either directly or through drift. Only protected handlers may be in the area during application.

DuPont™ Exirel® insect control must be used only in accordance with directions on this bulletin or in separately published DuPont labeling.

DuPont Exirel® Insect control is recommended for control of fruit feeding thrips in citrus, in addition to control of foliage feeding thrips which are currently listed on the Section 3 label.

Apply Exirel® insect control at 16.0-20.5 fl oz/A plus adjuvant (see adjuvant section of the federal label for more details) as a foliar spray using properly calibrated ground spray equipment. Initial application should be made at petal fall.

For best results use the highest labeled rate of Exirel® (20.5 fl oz/A). Under moderate to high pest pressure, an additional application of Exirel® or another effective thrips insecticide may be needed to maintain thrips populations below action threshold levels. Monitor or scout treated fields 5-7 days after application for thrips feeding on fruit or an increase in thrips population. If early signs of feeding (as silvering) are observed on fruit, make another application. Begin applications when insect populations first appear. Time applications to the most susceptible insect pest stage, typically at egg hatch and/or newly hatched larvae or nymphs, before populations reach damaging levels. Applications outside the described window in this 2(ee) may not achieve the desired result of protecting fruit from thrips damage. Consult your state cooperative extension service, professional consultants or other qualified authorities to determine appropriate action threshold levels for this pest.

Thorough spray coverage of fruit and foliage is essential to achieve best results. For best results apply in 100-150 gallons per acre. Avoid tank mixing unless prior experience of good results and compatibility with Exirel® exists. Avoid tank mixing with products known to reduce efficacy of insecticides on thrips.

Read and follow the protection of pollinators section of the federal label when using during bloom.

DuPont will not be responsible for losses or damages resulting from the use of this product in any manner not specifically instructed by DuPont. User assumes all risks associated with uses not specified by the label or DuPont 2(ee) instructions.

RESTRICTIONS

Do not apply a total of more than 0.4 lbs ai/A of CYAZYPYR® or cyantranilprole containing products per year.

The minimum retreatment interval is 7 days.

The pre-harvest interval for citrus is 1 day.

The field re-entry interval for citrus is 12 hours.

IMPORTANT NOTICE

BEFORE BUYING OR USING DUPONT PRODUCT(S) COVERED BY THIS BULLETIN, READ THIS BULLETIN, AND THE LABELS FOR ALL PRODUCTS REFERENCED IN THIS BULLETIN, IN THEIR ENTIRETY. FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS.

It is a violation of federal law to use this or any other pesticide product in a manner inconsistent with its labeling. This bulletin contains supplemental instructions for use of the referenced DuPont product. Follow these instructions carefully. This bulletin should be in the possession of the user at the time of application.

Read the Limitation of Warranty and Liability on the Section 3 Federal product label before buying or using THIS product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the Section 3 Federal product label.
