

2(ee) Recommendation

Use information in accordance with Section 2(ee) of FIFRA

DUPONT™ VERIMARK® INSECT CONTROL

EPA Reg. No. 352-860

FOR THE SUPPRESSION OF CURLY TOP DISEASE INCIDENCE IN TOMATOES VECTORED BY BEET LEAFHOPPER IN THE STATE OF CALIFORNIA

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe; consult the agency responsible for pesticide regulation. Do not apply this product in any way that will contact workers or other persons; either directly or through drift. Only protected handlers may be in the area during application.

DuPont™ Verimark® insect control must be used only in accordance with directions on this bulletin or in separately published DuPont labeling.

DuPont™ Verimark® insect control is recommended for the suppression of curly top disease incidence in tomatoes when vectored by beet leafhopper.

Apply DuPont™ Verimark® insect control at 13.5 fluid ounces per acre as a transplant tray drench application. Read and follow label directions for transplant tray drench applications as described on the main label.

DuPont™ Verimark® insect control impairs insect muscle function, resulting in rapid cessation of feeding and limiting the ability of insects to move, which can reduce transmission and spreading of insect vectored diseases. For best results on suppression of curly top, use Verimark® as part of a beet leafhopper control program.

Read and follow the protection of pollinators section of the Section 3 label.

DuPont will not be responsible for losses or damages resulting from the use of this product in any manner not specifically instructed by DuPont. User assumes all risks associated with uses not specified by the label or DuPont 2(ee) instructions.

RESTRICTIONS

Do not apply a total of more than 0.4 lb ai/A of CYAZYPYR® or cyantraniliprole containing products per year.

Re-entry interval is 4 hours.

Last application (days to harvest) = 1 day.

(Replaces R-1701 020416 02-10-16)

IMPORTANT NOTICE

BEFORE BUYING OR USING DUPONT PRODUCT(S) COVERED BY THIS BULLETIN, READ THIS BULLETIN, AND THE LABELS FOR ALL PRODUCTS REFERENCED IN THIS BULLETIN, IN THEIR ENTIRETY. FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS.

It is a violation of federal law to use this or any other pesticide product in a manner inconsistent with its labeling. This bulletin contains supplemental instructions for use of the referenced DuPont product. Follow these instructions carefully. This bulletin should be in the possession of the user at the time of application.

Read the Limitation of Warranty and Liability on the Section 3 Federal product label before buying or using THIS product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the Section 3 Federal product label.
