

CORNBELT® LOCKTITE™ MSO

ACTIVE INGREDIENTS:

Proprietary Blend of Methylated Soybean Oil, Fatty Acid Complex Alkoxyates, Alkyl Aryl Polyoxyethylene Glycol, Oligomeric Resin and Isomeric Alcohol Alkoxyate 94%

Note: Ingredients exempt from tolerances under 40CFR 180.910

WARNING

**STOP-READ ENTIRE LABEL BEFORE USING
AND
KEEP OUT OF REACH OF CHILDREN**

Net Contents: 2.5 Gallons

Hazard Statements

Causes skin irritation. Causes serious eye irritation.

Precautionary Statements

Wash thoroughly after handling.

Wear protective gloves/eye protection/face protection.

First Aid

IF ON SKIN (or hair): Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse.

If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse continually with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.

If eye irritation persists: Get medical advice/attention.

PRECAUTIONARY STATEMENTS

WARNING: Causes skin irritation and serious eye irritation. Read and follow all precautionary statements on the accompanying pesticide label(s).

FIRST AID

If on skin: Remove contaminated clothing and wash before reuse. Wash affected area with plenty of soap and water. Get medical attention if irritation occurs. Do not use solvents or thinners.

If in eyes: Flush eyes with plenty of water for at least ten minutes. Call a physician if irritation persists.

If swallowed: Call a doctor or get medical attention. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Keep at rest.

USE PRECAUTIONS

The amount and degree of drift depends on many factors including, but not limited to, the type of pesticide, application conditions, equipment and vegetation near the target spray area. Cornbelt® Locktite™ MSO functions as a drift management tool. It will not totally eliminate spray drift.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage:

Keep this container tightly closed. Do Not Freeze. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment.

In the event of a major spill, fire or other emergency, call CHEMTREC at (800) 424-9300.

Disposal:

Triple rinse container and pour rinsate into spray tank. Do not reuse container. Offer triple-rinsed container for recycling. Dispose of contents/container in accordance with local/national/international regulations.

GENERAL INFORMATION

Cornbelt® Locktite™ MSO is a high surfactant load methylated soybean oil containing a multifunctional patent pending nonionic surfactant and drift and deposition management agent with anti-bounce technology. Cornbelt® Locktite™ MSO is specially formulated to provide the MSO needed at reduced rates for herbicide technologies that require a high quality MSO for increased efficacy such as Kixor® technology. Use Cornbelt® Locktite™ MSO when the herbicide label calls for a MSO and you want better canopy penetration and droplet retention on the leaf surface. Cornbelt® Locktite™ MSO is designed for use with all nozzle types. The adhesive properties of Cornbelt® Locktite™ MSO provide superior anti-bounce of the spray droplet and greater retention on the leaf surface.

DIRECTIONS FOR USE

Cornbelt® Locktite™ MSO is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial and non-crop uses.

WARNING: Read and follow all pesticide label directions. Do not use where the pesticide label specifically prohibits the use of an adjuvant. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture or should apply a small test area before making large scale applications. The addition of an adjuvant to spray mixtures may cause phytotoxicity to susceptible crop and vegetation. Care should be exercised when using on new varieties or crops not previously treated with Cornbelt® Locktite™ MSO.

USE RATE: Use Cornbelt® Locktite™ MSO at 2 to 3 quart per 100 gallon of spray solution. Use the higher rate with extreme weed pressure or when plants are stressed at time of treatment. The higher rate is also suggested for use with products containing Kixor® technology.

MIXING: Add Cornbelt® Locktite™ MSO to the spray mix last and continue agitation.

CONDITIONS OF SALE AND WARRANTY

The directions for use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result beyond the control of Van Diest Supply Company or the Seller. All such risks shall be assumed by the Buyer. Van Diest Supply Company warrants that this product conforms to the chemical description on the label and is a reasonable fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. VAN DIEST SUPPLY COMPANY MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. IN NO CASE SHALL VAN DIEST SUPPLY COMPANY OR THE SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. Van Diest Supply Company and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of Van Diest Supply Company.

Kixor® is a registered trademark of BASF. Cornbelt® and Cornbelt Logo® are Registered Trademarks of Van Diest Supply Company. Locktite™ MSO is a trademark™ of Van Diest Supply Company.
