STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

STORAGE: Store in a cool, dry place. Keep containers tightly closed. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Keep away from food, feed, or other products, especially oxidizing agents, to prevent contamination. **Do not allow product to freeze.**

GENERAL INFORMATION

OPTIFY™ A20 is a low-foaming, convenient premix of ammonium sulfate water conditioner and NPE-free surfactant designed overcome hard water issues. OPTIFY™ A20 provides fast surfactant wetting on the leaf, contains a humectant that keeps pesticides active on the leaf longer, and provides ammonium to help increase plant uptake of pesticide through the leaf surface.

DIRECTIONS FOR USE SHAKE WELL BEFORE USING

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages, rates and restrictions have precedence over DIRECTIONS FOR USE referred to on this label.

MIXING: Fill spray tank half full with water and start agitation. Always add OPTIFY™ A20 first with the agitator running. Then add pesticides and continue to fill spray tank.
