Material Safety Data Sheet TALSTAR® PL GRANULAR INSECTICIDE

SDS #: 1686-A

Revision Date: 2011-09-22

Version 1

This MSDS has been prepared to meet U.S. OSHA Hazard Communication Standard 29 CFR 1910.1200 and Canada's Workplace Hazardous Materials Information System (WHMIS) requirements.

1. PRODUCT AND COMPANY IDENTIFICATION

Product name TALSTAR® PL GRANULAR INSECTICIDE

Formula code 1686

Active Ingredient(s) Bifenthrin

Synonyms FMC 54800; (2-methyl[1,1'-biphenyl]-3-yl)methyl

3-(2-chloro-3,3,3-trifluoro-1-propenyl)-2,2-dimethylcyclopropanecarboxylate; IUPAC:

2-methylbiphenyl-3-ylmethyl

(Z)-(1RS)-cis-3-(2-chloro-3,3,3-trifluoroprop-1-enyl)-2,2-dimethylcyclopropanecarboxylate.

Chemical Family Pyrethroid Pesticide

Recommended use Insecticide Miticide

Manufacturer Emergency telephone number

FMC Corporation

Agricultural Products Group For leak, fire, spill or accident emergencies, call: 1735 Market Street +1 800.424.9300 (CHEMTREC - U.S.A.)

Philadelphia, PA 19103 +1 703.527.3887 (CHEMTREC - Collect - All Other Countries)

General Information: Medical Emergencies:

Phone: (215) 299-6000 (800) 331-3148 (U.S.A. & Canada)

E-Mail: msdsinfo@fmc.com +1 (651) 632-6793 (All Other Countries - Collect)

2. Hazards identification

Appearance Light tan to tan granules

Physical State Solid

Odor slight musty

Physical or Chemical Hazards

Flammable properties Powdered material may form explosive dust-air mixtures

Potential health effects

Principle Routes of Exposure Skin contact, Eye contact, Inhalation. Ingestion.

Acute effects

Eyes May cause slight irritation.

SkinMay cause sensitization by skin contact.InhalationMay cause irritation of respiratory tract.

Ingestion Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

MSDS #: 1686-A **Revision Date:** 2011-09-22

Version 1

Chronic effects Prolonged exposure may cause chronic effects. See Section 11 for additional Toxicological

Information.

Environmental hazard Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

3. Composition/information on ingredients

Hazardous ingredients

Chemical Name	CAS-No	Weight %
crystalline silica, quartz	14808-60-7	>95
Bifenthrin	82657-04-3	0.2

4. First aid measures

Eye contact Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses,

if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor

for further treatment advice.

Skin contact Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

Call a poison control center or doctor for treatment advice.

Inhalation Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial

respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for

further treatment advice.

Ingestion Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of

water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or

doctor. Do not induce vomiting or give anything by mouth to an unconscious person.

Notes to physician This product is a pyrethroid. If large amounts have been ingested, the stomach and intestines should

be evacuated. Treatment is symptomatic and supportive. Digestible fats, oils, or alcohol may increase

absorption and so should be avoided.

5. Fire-fighting measures

Flammable properties Powdered material may form explosive dust-air mixtures

Flash Point not applicable Special hazards arising from the substance or mixture

Sensitivity to Mechanical Impact not applicable Sensitivity to Static Discharge not applicable

Extinguishing media

Suitable extinguishing media Use CO2, dry chemical, or foam.

Advice for fire-fighters

Protective equipment and precautions As in any fire, wear self-contained breathing apparatus and full protective gear.

for firefighters

Version 1

6. Accidental release measures

Personal precautions In case of spill, avoid contact. Isolate area and keep out animals and unprotected persons.

Environmental precautionsTry to prevent the material from entering drains or water courses.

Methods for containmentCover powder spill with plastic sheet or tarp to minimize spreading and keep powder dry.

Methods for cleaning up Take up mechanically and collect in suitable container for disposal. Do not dry sweep dust. Wet dust

with water before sweeping or use a vacuum to collect dust.

Other For further clean-up instructions call FMC Emergency Hotline number listed in Section 1 "Product

and Company Identification" above.

7. Handling and storage

Handling Do not contaminate other pesticides, fertilizers, water, food or feed by storage or disposal.

Storage Keep in a dry, cool and well-ventilated place. Keep away from open flames, hot surfaces and sources

of ignition. Keep out of reach of children and animals. Store in original container only.

8. Exposure controls/personal protection

Exposure guidelines

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH	Mexico
crystalline silica, quartz	TWA: 0.025 mg/m ³		IDLH: 50 mg/m ³	Mexico: TWA 0.1 mg/m ³
14808-60-7			TWA: 0.05 mg/m ³	

Chemical Name	British Columbia	Quebec	Ontario TWAEV	Alberta
crystalline silica, quartz	TWA: 0.025 mg/m ³	TWA: 0.1 mg/m ³	TWA: 0.10 mg/m ³	TWA: 0.025 mg/m ³
14808-60-7	-			

Occupational exposure controls

Engineering measures Apply technical measures to comply with the occupational exposure limits. When working in

confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and

wear the recommended equipment.

Personal protective equipment

General Information If the product is used in mixtures, it is recommended that you contact the appropriate protective

equipment suppliers. These recommendations apply to the product as supplied.

Respiratory protection For dust, splash, mist or spray exposures wear a filtering mask.

Eye/face protection For dust, splash, mist or spray exposure, wear chemical protective goggles or a face-shield.

Skin and body protection Wear long-sleeved shirt, long pants, socks, shoes, and gloves.

Hand protection Protective gloves

Hygiene measures Clean water should be available for washing in case of eye or skin contamination. Wash skin prior to

eating, drinking, chewing gum or using tobacco. Shower or bathe at the end of working. Remove and wash contaminated clothing before re-use. Launder work clothing separately from regular household

laundry.

Revision Date: 2011-09-22 **Version** 1

9. Physical and chemical properties

Appearance Light tan to tan granules

Colorcream to tanPhysical StateSolidOdorslight musty

pHNo information availableMelting Point/RangeNo information availableFreezing pointNo information available

Boiling Point/Rangenot applicableFlash Pointnot applicableEvaporation ratenot applicableAutoignition Temperaturenot applicable

Flammable properties Powdered material may form explosive dust-air mixtures

Vapor pressure not applicable

Vapor density No information available

Density 1.39 g/mL

Relative density No information available

Bulk density

Water solubility No information available Percent volatile No information available

Partition coefficient: not applicable

Viscosity No information available

Oxidizing properties not applicable

10. Stability and reactivity

Stability Stable

Conditions to avoid Excessive heat. Keep away from open flames, hot surfaces and sources of ignition.

Hazardous decomposition products Carbon oxides, Hydrogen chloride, Hydrogen fluoride

Hazardous polymerization Hazardous polymerization does not occur.

11. Toxicological information

Acute toxicity

Large doses of bifenthrin ingested by laboratory animals produced signs of toxicity including convulsions, tremors and bloody nasal discharge. Bifenthrin does not cause acute delayed neurotoxicity. Experience to date indicates that contact with bifenthrin may occasionally produce skin sensations such as rashes, numbing, burning or tingling. These sensations are reversible and usually subside within 12 hours.

Eye contact Non-irritating. Product dust may cause mechanical eye irritation.

Skin contact Non-irritating during normal use.

Ingestion Harmful if swallowed.

 $\begin{array}{lll} \textbf{LD50 Dermal} & > 2,000 & \text{mg/kg (rabbit)} \\ \textbf{LD50 Oral} & > 5,000 & \text{mg/kg (rat)} \\ \textbf{LC50 Inhalation:} & \text{No information available} \\ \end{array}$

Sensitization Bifenthrin: May cause sensitization by skin contact.

Chronic Toxicity - Other Ingredient(s)

Chronic Toxicity Prolonged exposure may cause chronic effects. See Section 11 for additional Toxicological

Information.

MSDS #: 1686-A **Revision Date:** 2011-09-22

Version 1

Carcinogenicity Bifenthrin: Did not show carcinogenic effects in animal experiments. This product contains

crystalline silica (quartz) in a non-respirable form. Inhalation of crystalline silica is unlikely to occur from exposure to this product. However, if granules are pulverized or crushed into a fine, respirable

powder, silica exposure via inhalation is probable

Mutagenicity Bifenthrin: Not genotoxic.

Reproductive toxicity Bifenthrin: No toxicity to reproduction.

Neurological EffectsTremors were associated with chronic exposure of laboratory animals to bifenthrin, which may

disappear with continued exposure.

Developmental ToxicityBifenthrin: Not teratogenic in animal studies

Target Organ Effects Bifenthrin: A slight increase in male mouse urinary bladder tumors at the highest dose was probably

not of toxicological concern.

Chronic Toxicity - Other Ingredient(s) Repeated overexposure to crystalline silica for extended periods has caused acute silicosis.

Chemical Name	ACGIH	IARC	NTP	OSHA	NIOSH - Target Organs
crystalline silica, quartz	A2	1	Known	X	eyes,respiratory system

12. Ecological information

Ecotoxicity

Bifenthrin (82657-04-3)

Active Ingrendient	Duration	Species	Value	Units
Bifenthrin	EC50	Aquatic organisms	0.11 - 0.57	μg/L
Bifenthrin	96 h LC50	Fish	0.1 - 2.0	μg/L
Bifenthrin	LD50 Oral	Bobwhite quail	>1800	mg/kg
Bifenthrin	LD50 Oral	Mallard duck	>2150	mg/kg
Bifenthrin	LD50	Bee	0.1	μg/bee

Environmental Fate

Bifenthrin (82657-04-3)

Active Ingrendient	Type of Test	Result
Bifenthrin	Bioconcentration factor (BCF)	1709
Bifenthrin	Half-life in soil	~85 days
Bifenthrin	log Pow	6.6
Bifenthrin	Mobility in soil	Not expected to reach groundwater
Bifenthrin	Stability in water	Stable to hydrolysis over a wide range of pH values.

13. Disposal considerations

Waste disposal methods Improper disposal of excess pesticide, spray mixture, or rinsate is prohibited. If these wastes cannot

be disposed of by use according to label instructions, contact appropriate disposal authorities for

guidance.

MSDS #: 1686-A **Revision Date:** 2011-09-22

Version 1

Contaminated packaging Containers must be disposed of in accordance with local, state and federal regulations. Refer to the

product label for container disposal instructions.

14. Transport information

DOT This material is not a hazardous material as defined by U.S. Department of Transportation at 49 CFR

Parts 100 through 185.
