## 1 Identification

**Product identifier**
- **Trade name:** Confirm® 2F Insecticide
  - EPA Registration No.: 8033-111-10163
- **CAS Number:** Active Ingredient: Tebufenozide (23%), CAS: 8033-111-10163
- **Application of the substance / the mixture:** Agricultural insecticide

**Details of the supplier of the safety data sheet**
- **Manufacturer/Supplier:**
  - Gowan Company
  - P.O. Box 5569
  - Yuma, Arizona 85366-5569
  - (928) 783-8844
- **Information department:** sds@gowanco.com
- **Emergency telephone number:**
  - Chemtrec® Emergency Telephone 24 - Hours: (Spills, leak or fire) Inside U.S. & Canada: (800) 424-9300
  - Outside the U.S. & Canada: +011 (703) 527-3887

  For medical emergency (Prosar®): (888) 478-0798

## 2 Hazard(s) identification

**Classification of the substance or mixture**
- ![GHS07](image)
- Acute Tox. 4 H302 Harmful if swallowed.
- Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects.

**Label elements**
- **GHS label elements**
  - The product is classified and labeled according to the Globally Harmonized System (GHS).

**Hazard pictograms**
- ![GHS07](image)

**Signal word** Warning

**Hazard statements**
- Harmful if swallowed.
- Harmful to aquatic life with long lasting effects.

**Precautionary statements**
- Avoid release to the environment.
- Wash thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
- Rinse mouth.
- Dispose of contents/container in accordance with local/regional/national/international regulations.

**Hazard description:** (Contd. on page 2)
Harmful if swallowed, inhaled, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Keep and wash PPE separately from other laundry.

- **Classification system:**
  - NFPA ratings (scale 0 - 4)
    - Health = 1
    - Fire = 0
    - Reactivity = 0
  
  **HAZARD INDEX:**
  - 4 Severe Hazard
  - 3 Serious Hazard
  - 2 Moderate Hazard
  - 1 Slight Hazard

- **Other hazards**
  - **Results of PBT and vPvB assessment**
    - **PBT:** Not applicable in US.
    - **vPvB:** Not applicable in US.

### 3 Composition/information on ingredients

- **Chemical characterization:** Mixtures
  - **Description:** Only the identities of the active ingredient(s) and any hazardous inert ingredients are listed.

#### 4 First-aid measures

- **Description of first aid measures**
  - **General information:**
    - Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
    - You may also contact 1-888-478-0798 for emergency medical treatment information.
  - **After inhalation:**
    - Move person to fresh air.
    - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
    - Call poison control center or doctor for further treatment advice.
  - **After skin contact:**
    - Take off contaminated clothing.
    - Rinse skin immediately with plenty of water for 15-20 minutes.
    - Call a poison control center or doctor for treatment advice.
  - **After eye contact:**
    - Hold eye open and rinse slowly and gently with water for 15-20 minutes.
    - Remove contact lenses, if present, after first 5 minutes, then continue rinsing eyes.
    - Call a poison control center or doctor for treatment advice.
  - **After swallowing:**
    - Call a poison control center or doctor immediately for treatment advice.
    - Have person sip a glass of water if able to swallow.
5 Fire-fighting measures

- **Extinguishing media**
  - Suitable extinguishing agents: CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
  - Special hazards arising from the substance or mixture: No further relevant information available.
  - Advice for firefighters: Remain upwind. Avoid breathing smoke. Use water spray to cool containers exposed to fire. Contain run-off.
  - **Protective equipment:** Wear self-contained respiratory protective device.

6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
  - Keep unnecessary people away and isolate hazard area. Wear appropriate personal protective equipment described in Section 8.
- **Environmental precautions:** Do not allow to enter sewers/surface or ground water.
- **Methods and material for containment and cleaning up:**
  - Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- **Reference to other sections**
  - See Section 7 for information on safe handling.
  - See Section 8 for information on personal protection equipment.
  - See Section 13 for disposal information.

7 Handling and storage

- **Handling:**
  - Precautions for safe handling: Harmful if swallowed, inhaled, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Keep and wash PPE separately from other laundry.
  - Information about protection against explosions and fires: No special measures required.
- **Conditions for safe storage, including any incompatibilities**
  - Storage:
    - Requirements to be met by storerooms and receptacles: No special requirements.
    - Information about storage in one common storage facility: Store away from foodstuffs.
- **Further information about storage conditions:**
  - Store in a cool, dry, well-ventilated area, but not below 32°F.
- **Specific end use(s):** No further relevant information available.

8 Exposure controls/personal protection

- **Additional information about design of technical systems:** No further data; see item 7.
Safety Data Sheet  
acc. to OSHA

Trade name: Confirm® 2F Insecticide  
EPA Registration No.: 8033-111-10163

(Contd. of page 3)

- Control parameters
  - Components with limit values that require monitoring at the workplace:
    The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
  - Additional information:
    May cause eye irritation. Harmful if swallowed, inhaled or adsorbed through the skin. Do not swallow, get in eyes, on skin or breathe spray mist.

- Exposure controls
  - Personal protective equipment:
    - General protective and hygienic measures:
      Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
    - Breathing equipment: Not required.
    - Protection of hands:

          Protective gloves

- Material of gloves Chemical-resistant made of any waterproof material
- Penetration time of glove material
  The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Body protection:
  Applicators and other handlers must wear:
  - Long-sleeved shirt and long pants
  - Waterproof gloves
  - Shoes plus socks

9 Physical and chemical properties

- Information on basic physical and chemical properties
  - General Information
    - Appearance:
      - Form: Liquid
      - Color: Off-white
      - Odor: Musty
      - Odor threshold: Not determined.
    - pH-value at 20 °C (68 °F): 6 to 7.5
  - Change in condition
    - Melting point/Melting range: Undetermined.
    - Boiling point/Boiling range: 100 °C (212 °F)
  - Flash point: Not applicable.
  - Flammability (solid, gaseous): Not applicable.

(Contd. on page 5)
### 10 Stability and reactivity

- **Reactivity** No further relevant information available.
- **Chemical stability** Stable under normal conditions
  - **Thermal decomposition / conditions to be avoided:**
    Thermal decomposition may yield the following: isobutylene
- **Possibility of hazardous reactions** No dangerous reactions known.
- **Conditions to avoid** No further relevant information available.
- **Incompatible materials**:
  - No further relevant information available.
- **Hazardous decomposition products**:
  - No dangerous decomposition products known.

### 11 Toxicological information

- **Information on toxicological effects**
  - **Acute toxicity**
    - **LD/IC50 values that are relevant for classification:**
      | Route      | LD50/LC50 | Value         |
      |-------------|-----------|---------------|
      | Oral        | LD50     | >5000 mg/kg (rat) |
      | Dermal      | LD50     | >5000 mg/kg (rat) |
      | Inhalative  | LC50/4 h | >2.7 mg/l (rat) |

- **Primary irritant effect**:
  - **on the skin**: No irritant effect.
  - **on the eye**: No irritating effect.
  - **Sensitization**: No sensitizing effects known.
Safety Data Sheet  
acc. to OSHA

Trade name: Confirm® 2F Insecticide  
EPA Registration No.:8033-111-10163

- Additional toxicological information:
  The product is not subject to classification according to internally approved calculation methods for preparations:
  When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

Mutagenic Potential
  For tebufenozide, in-vitro and animal genetic toxicity studies were negative. For glycerine, in-vitro genetic toxicity studies were negative.

Reproductive Hazard Potential
  Tebufenozide, in animal studies, did not interfere with reproduction. For glycerine, reproductive effects seen in female animals are believed to be due to altered nutritional states resulting from extremely high doses of glycerine given in the diet. Similar effects have been seen in animals fed synthetic diets.

Carcinogenic Potential
  Tebufenozide and glycerine did not cause cancer in laboratory animals.

- Carcinogenic categories

  | IARC (International Agency for Research on Cancer)          |
  | None of the ingredients are listed.                        |
  | NTP (National Toxicology Program)                          |
  | None of the ingredients are listed.                        |
  | OSHA-Ca (Occupational Safety & Health Administration)      |
  | None of the ingredients are listed.                        |

I2 Ecological information

- Toxicity
  ENVIRONMENTAL HAZARDS
  This product is toxic to aquatic invertebrates. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Under some conditions, this chemical may also have a high potential for runoff into surface water for several weeks or months after application. Do not cultivate within 10 feet of aquatic areas so as to allow growth of a vegetative filter strip. Drift from applications of this pesticide is likely to result in damage to sensitive aquatic invertebrates in water bodies adjacent to treatment area. For terrestrial uses, do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark, except under forest canopy when aerially applied to control forest pests. Do not contaminate water when disposing of equipment washwaters and rinsate. Do not apply when weather conditions favor drift or runoff from areas treated. This pesticide demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

  In New York: Do not apply by ground within 25 feet, or by air within 150 feet, of lakes, reservoirs, rivers, permanent streams, marshes, or natural ponds; estuaries and commercial fish farm ponds.
  - Aquatic toxicity: No further relevant information available.
  - Persistence and degradability: No further relevant information available.
  - Behavior in environmental systems:
    - Bioaccumulative potential: No further relevant information available.
    - Mobility in soil: No further relevant information available.
Trade name: Confirm® 2F Insecticide  
EPA Registration No.: 8033-111-10163

- Other information:
  - ECOTOXICOLOGY (based on information for tebufenozide):
    Oyster shell (Crassostrea virginica), Deposition EC50 is 0.64 mg/L  
    Earthworm 14 Day LC50 is >1000 mg/kg  
    Honeybee LD50 is >234 µg/bee  
    Mallard duck LC50 is >5000 ppm  
    Bobwhite quail LC50 is >5000 ppm  
    Bobwhite quail LD50 is >2150 mg/kg  
    Daphnia magna 48 hour EC50 is 3.8 mg/L  
    Rainbow trout (Salmo gairdneri) 96 hour LC50 is 5.7 mg/L  
    Bluegill sunfish (Lepomis macrochirus) 96 hour LC50 is 3.0 mg/L

- Additional ecological information:
  - General notes:
    Do not allow product to reach ground water, water course or sewage system.  
    Danger to drinking water if even small quantities leak into the ground.

- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.
  - Other adverse effects: No further relevant information available.

13 Disposal considerations

- Waste treatment methods
  - Recommendation:
    Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

- Uncleaned packaging:
  - Recommendation:
    Non-refillable container. Do not reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available, or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 psi for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

14 Transport information

- UN-Number
  - DOT, ADR, ADN, IMDG, IATA: Not regulated

- UN proper shipping name
  - ADR: Not Regulated  
  - ADN, IMDG, IATA: Not regulated
15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture
  EPA /FIFRA Information:
  This chemical is a pesticide product registered by the Environmental Protection Agency (EPA) and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals.
  - SARA Title III
    - Section 355 (extremely hazardous substances):
      None of the ingredients are listed.
    - Section 313 (Specific toxic chemical listings):
      None of the ingredients are listed.
  - TSCA (Toxic Substances Control Act):
    None of the ingredients are listed.
  - Proposition 65
    - Chemicals known to cause cancer:
      None of the ingredients are listed.
    - Chemicals known to cause reproductive toxicity for females:
      None of the ingredients are listed.
    - Chemicals known to cause reproductive toxicity for males:
      None of the ingredients are listed.
    - Chemicals known to cause developmental toxicity:
      None of the ingredients are listed.
  - Carcinogenicity categories
    - EPA (Environmental Protection Agency)
      None of the ingredients are listed.
    - TLV (Threshold Limit Value established by ACGIH)
      None of the ingredients are listed.
Trade name: Confirm® 2F Insecticide
EPA Registration No.: 8033-111-10163

- **NIOSH-Ca (National Institute for Occupational Safety and Health)**

  None of the ingredients are listed.

- **GHS label elements**

  Not applicable
  The product is classified and labeled according to the Globally Harmonized System (GHS).

- **Hazard pictograms**

  Not applicable

- **Signal word:**

  (US EPA) CAUTION

- **Hazard statements**

  May cause eye irritation.
  Harmful if swallowed, absorbed through the skin or inhaled.
  Do not swallow, get in eyes, on skin or breathe spray mist.
  Harmful if swallowed.
  Harmful to aquatic life with long lasting effects.

- **Precautionary statements**

  Avoid release to the environment.
  Wash thoroughly after handling.
  Do not eat, drink or smoke when using this product.
  IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
  Rinse mouth.
  Dispose of contents/container in accordance with local/regional/national/international regulations.

- **Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.
