PREFERENCE®

NONIONIC SURFACTANT and ANTIFOAMING AGENT

PRINCIPAL FUNCTIONING AGENTS:

Alkylphenol ethoxylate, sodium salts of soya fatty acids, isopropyl alcohol..... 89.5%

CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT 10.5%

TOTAL 100%

Surfactant Content 60%

All ingredients are exempt from the requirement of a tolerance in CFR 40,180.

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes serious eye irritation. Harmful if inhaled. Flammable liquid and vapor. May cause damage to kidneys and/or liver through prolonged or repeated exposure.

SEE BOOKLET FOR ADDITIONAL PRECAUTIONARY STATEMENTS, DIRECTIONS FOR USE, AND STORAGE AND DISPOSAL

PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling Wear protective gloves, eye protection and face protection. Avoid breathing mist or spray. Use only outdoors or in a well-ventilated area. Keep away from heat, sparks, open flames, hot surfaces. - No Smoking. Keep container tightly closed. Ground/Bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

IN CASE OF FIRE: Use alcohol-resistant foam, universal foam, water spray or water fog to extinguish.

FIRST AID

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor for treatment advice if you feel unwell.

IF ON SKIN (OR HAIR): Take off immediately all contaminated clothing. Rinse skin with water/shower.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. In case of medical emergency, call toll free 1-877-424-7452.

GENERAL INFORMATION

Preference® nonionic surfactant is a low foam surfactant used to improve the effectiveness of foliar-applied insecticides, herbicides, fungicides and defoliants. Adding Preference® to the spray mixture will reduce surface tension of spray droplets, resulting in more thorough wetting of leaf surfaces and pesticide absorption by leaves and foliage.

DIRECTIONS FOR USE
MIX WELL BEFORE USING

Preference® may be used whenever a pesticide label allows for the addition of a nonionic surfactant. Always check pesticide label for specific crop use and application rates.

Suggested rates for use with various categories of chemicals are as follows:

Chemical Group	Pints of PREFERENCE to add per 100 gallons of spray mixture	PREFERENCE Rate per 100 Gallons
Insecticides, Miticides & Fungicides	0.25% v/v	1 qt.
Herbicides	0.25-0.5% v/v	1 to 2 qt.
Glyphosate formulations without added surfactants	0.25-0.5% v/v	1 to qt.
Defoliants & Desiccants	0.25% v/v	1 qt.
Fertilizers & Micronutrients	0.25% v/v	1 qt.

In difficult wetting situations (such as hard water or mature waxy foliage), use the higher rate.

Aquatic Use: Use 1 to 2 quarts of PREFERENCE® per 100 gallons of spray solution in aquatic weed control applications. Always follow herbicide label for specific directions and precautions. (Not for aquatic use in Washington.)

NOTE: Carefully read the directions and precautions contained on the label of the herbicide, insecticide, or fungicide with which PREFERENCE® is to be used. Follow pesticide label instructions to determine when PREFERENCE® should be added to the spray mixture and for the proper rate.

STORAGE AND DISPOSAL

STORAGE: Store in a well-ventilated place. Keep cool. If frozen, bring back to room temperature, then shake well or re-circulate before use. Do not reuse empty container.

DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.agrecycling.org. Decontaminated containers may also be disposed of in a sanitary landfill.
