

# Corral® Poly

## Drift Control Agent and Deposition Aid

For use with Pesticides and Fertilizers

### PRINCIPAL FUNCTIONING AGENTS:

Polyvinyl Polymer (Polyacrylamide).....	30%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT.....	70%
TOTAL	100.00%

All ingredients are exempt from tolerance requirements as specified in federal regulation 40 CFR 180.

**STOP - READ LABEL BEFORE USING.**

**KEEP OUT OF REACH OF CHILDREN**

### WARNING

Causes eye and skin irritation.

### PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling. Wear protective gloves.

### STORAGE AND DISPOSAL

Store in original container only. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.

### FIRST AID

**IF IN EYES:** Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

**IF ON SKIN:** Wash with plenty of water. If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash before reuse.

For Emergency, Spill, Leak, Fire, Exposure, or Accident, Call: CHEMTREC 1-800-424-9300.

### USE PRECAUTIONS

The degree of drift hazard varies with the type of pesticides, application conditions, and vegetation near the sprayed area. Common sense and sound application technology must be followed when spraying pesticides. CORRAL POLY will retard but not totally eliminate drift.

### GENERAL INFORMATION

CORRAL POLY is an effective, easy-to-use adjuvant for deposition improvement and drift retardation in spraying operations. CORRAL POLY is designed for general use in standard ground and aerial applications and is fully compatible with a wide variety of spray configurations. Further, CORRAL POLY is compatible in tank mix applications with a broad spectrum of crop protection pesticides, including the complete range of all branded and generic glyphosate formulations.

**DIRECTIONS FOR USE**  
**For Terrestrial Use Only – Not For Aquatic Use**

SHAKE BOTTLE WELL BEFORE USING. Dosages may be adjusted to compensate for environmental conditions or mechanical factors. For example, lower dosages generally may be used when spraying under calm winds, slow application speeds, low pressures, short release height, and for higher humidity. The greater the shear on the spray boom nozzle head, the greater the spray droplet fragmentation which produces fines (mists) which may drift to non targeted areas or evaporate and rise as smoke into the atmosphere. For best control results using this product in aerial application, use state-of-the-art techniques, such as pressure less than 45 psi and nozzles oriented 45 degrees back to straight back.

**Mixing:** This product is extremely concentrated and effective in mixing as low as 1 oz. per 100 gallons. Start with lower dosage and increase as needed. A thickened or "stringy" solution indicates that too much CORRAL POLY has been used.

1. Select proper dosage for the spraying operation.
2. Fill the mix tank with water, pesticide, fertilizer, surfactant and/or other additives and begin agitating.
3. Shake CORRAL POLY well before using.
4. For best results, either (1) inject CORRAL POLY liquid into the suction side of the feeder or recirculating pump to obtain adequate solution, or (2) slowly add CORRAL POLY liquid to the rapidly agitating tank mix to the areas of highest turbulence by pouring a thin stream through a pour space.
5. Continue to agitate the mix tank for at least 3 minutes before spraying.

**Dosage:** Generally 1-8 ounces per 100 gallons of spray solution.

Cone or raindrop nozzles	1-3 oz.
Flat fan or flood nozzles	1-5 oz.
Off center nozzles	2-6 oz.
Spraygun (30-50 psi)	5-8 oz.

After use, flush and rinse spray system. Follow clean-up instructions on the pesticide label.

**Notice of Warranty**

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
