

THIS RECOMMENDATION IS MADE AS PERMITTED UNDER FIFRA SECTION 2(ee) AND HAS NOT BEEN SUBMITTED TO OR APPROVED BY THE EPA.

For Agricultural or Commercial Use Only  
EPA Registration No. 279-3241

**2(ee) Recommendation**

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF FLORIDA

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

THIS PRODUCT BULLETIN CONTAINS NEW OR ADDITIONAL DIRECTIONS FOR USE WHICH ARE RECOMMENDED BY FMC CORPORATION UNDER FIFRA SECTION 2(ee)

| CROP                           | PEST   | RATE OF APPLICATION<br>(For control of weeds)                             |
|--------------------------------|--|---|
| Cucurbits, Fruiting Vegetables | Annual and perennial broadleaf weeds (see section 3 label for specific weeds controlled) | 0.5 to 2.0 fl. ozs.<br>(0.088 to 0.031 pounds active ingredient) per acre |

**DIRECTIONS FOR USE:**

Apply Aim EC Herbicide alone or with other herbicides or liquid fertilizers as a burn-down treatment **no later than 7 days prior to planting of labeled crops** to control or suppress problem weeds. Aim EC Herbicide may be used as a burn-down treatment for previous crops prior to new planting. Apply Aim EC Herbicide alone at rates up to 2.0 fl. ozs. (0.031 pound active ingredient) per acre or at 0.5 to 1.0 fl. ozs. (0.088 to 0.016 pound active ingredient) per acre in combination with labeled glyphosate or other post emergence or burndown products.

For optimum performance, make applications to actively growing weeds up to 4 inches in height or rosettes less than 3 inches across. Coverage is essential for good control. When applying Aim EC Herbicide into plastic mulch prior to planting, care must be taken to remove residues from the plastic prior to planting. A single 0.5 inch water event, either by natural rainfall or sprinkler irrigation and a 7 day interval between application and planting is required to remove residues.

**RESTRICTIONS:**

Do not apply more than 0.096 pounds active ingredient per acre per season (6.1 fl. ozs. per acre) of Aim EC.

Refer to respective tank-mix partner labels and follow the most restrictive labeling regarding plant back restrictions, rotational guidelines, methods of applications, and surfactant requirements of the tank mixture components.

**ALL APPLICABLE DIRECTIONS, RESTRICTIONS, WORKER PROTECTION STANDARDS REQUIREMENTS AND PRECAUTIONS ON THE EPA REGISTERED AIM EC HERBICIDE LABEL MUST BE FOLLOWED.**

**THIS LABEL MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.**
