RESTRICTED USE PESTICIDE

Due to toxicity to fish and aquatic organisms
For retail sale to and use only by certified applicators or persons under their direct supervision, and only for those uses covered by the certified applicator’s certification.

BIFENTHRIN GROUP 3A INSECTICIDE

BRIGADE 2EC INSECTICIDE / MITICIDE

FIFRA 24(c) Special Local Need Label

EPA SLN No.: ID - 070009
EPA Reg. No. 279-3313
FOR DISTRIBUTION AND USE ONLY IN IDAHO

This label for BRIGADE 2EC Insecticide/Miticide is valid until December 31, 2026 or until withdrawn, canceled or suspended.

Environmental Hazards
This pesticide is extremely toxic to fish and aquatic invertebrates. Use with care when applying in areas adjacent to any body of water. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not make applications when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or if bees are visiting the treatment area. Protect pollinating insects by following label directions intended to minimize drift and to reduce risk to these organisms.

The use of bifenthrin is prohibited in areas that may result in exposure of endangered species to bifenthrin. Prior to use in a particular county contact the local extension service for procedures and precautions to use to protect endangered species.
AGRICULTURAL USE REQUIREMENTS
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: Coveralls, Chemical-resistant gloves made of barrier laminate or viton ≥ 14 mils, and Shoes plus socks.

DIRECTIONS FOR USE:
- Apply in a minimum of 5 gallons of water per acre by air equipment or in a minimum of 20 gallons of water by ground equipment.
- When applying by air, 1-2 quarts of emulsified oil may be substituted for 1-2 quarts of water in the finished spray.
- This product may be applied through irrigation systems. Refer to the EPA registered label for chemigation directions.
- Follow the spray drift precautions on the EPA registered label.

RESTRICTIONS/PRECAUTIONS:
- This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Only apply as a pre-bloom or post-bloom spray only. Bees, used for pollination, must be removed from the field before a post-bloom application is made and should not be introduced into the field within 5 days of the pre-bloom application.
- Do not apply more than 6.4 fl oz/A (0.1 lb ai/A) per application.
- Do not make more than 3 applications in a crop year.
- Do not apply more than 19.2 fl oz/A (0.3 lb ai/A) per year.
- Maintain a minimum of 21 days between applications.
- Do not cut current year's treated Alfalfa Seed or Clover Seed crop for hay or forage.
- Do not graze current year's treated Alfalfa Seed or Clover Seed crop.
- Rotational crops may be planted no sooner than 30 days after last application.
- This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply by ground equipment within 25 feet, or by air within 150 feet of lakes, reservoirs, rivers, streams, marshes or ponds, estuaries, and commercial fish farm ponds.
- Refer to the EPA registered label for information on vegetative filter strip requirements.
Nonfood and Nonfeed Site Conditions: For purposes of pesticide registration, all alfalfa seed and clover seed crop fields are considered nonfood and nonfeed sites for pesticide use and the following conditions shall be met:

(a) No portion of the seed alfalfa or seed clover plant, including but not limited to seed screenings, green chop, hay, chaff, combine tailings, pellets, meal, whole seed and cracked seed, may be grazed, used, or distributed for food or feed purposes.

(b) The seed conditioner shall keep records of individual growers’ alfalfa and clover seed dirt weight and clean weight for three (3) years and shall furnish the records to the Director forthwith upon request.

(c) All seed screenings shall be disposed of at a sanitary landfill, incinerator, or other equivalent disposal site or by a procedure approved by the Director.

(d) The seed conditioner shall keep seed screening disposal records for three (3) years from the date of disposal and shall furnish the records to the Director forthwith, upon request. Disposal records shall consist of documentation from the disposal site and shall show the total weight of disposed screenings and date of disposal.

(e) All alfalfa or clover seed grown or conditioned in this state shall bear a tag or container label which forbids the use of the seed for human consumption or animal feed.

(f) No alfalfa or clover seed grown or conditioned in this state shall be distributed for human consumption or animal feed.

(g) All portions of the seed alfalfa or seed clover plant, including but not limited to seed screenings, pellets, meal, whole seed and cracked seed may be composted. All composted material may be applied to agricultural crop land approved by the Director.
