

State Supplemental Labeling

For Distribution and Use within the State of California

FLONICAMID GROUP 29 INSECTICIDE

EPA Reg. No. 71512-10-279

For Control of Listed Pests on Sunflower Subgroup 20B in the State of California

This Supplemental Label Expires on April 8, 2022 and must not be used or distributed after this date.

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in possession of the user at the time of application. Read the label affixed to the container for Beleaf® 50SG Insecticide before applying. Use of Beleaf® 50SG Insecticide according to this labeling is subject to the use directions, restrictions and precautions imposed by the label affixed to the container for Beleaf® 50SG Insecticide.

CROP: SUNFLOWER SUBGROUP 20B (0 DAY PHI)

Includes Calendula; castor oil plant; chinese tallowtree; euphorbia; evening primrose; jojoba; niger seed; rose hip; safflower; stokes aster; sunflower; tallowwood; tea oil plant; vernonia; cultivars, varieties, and/or hybrids of these.

PESTS	RATE PER ACRE
Aphids and Plant Bugs	2.8 fl oz (0.089 lb. a.i. /A)

APPLICATION DIRECTIONS

Apply when insects first appear in the field and before populations reach high levels. Beleaf® 50SG will stop feeding rapidly but it may take several days to see a reduction in insect numbers. Reapply when new insects are detected. Two sequential applications of Beleaf® 50SG result in better control than a single application. Do not make more than two applications of Beleaf® 50SG without rotating to an insecticide with a different mode of action.

Thorough spray coverage of plant foliage is essential for optimum control. Use a minimum of 5 gallons per acre by ground and 3 gallons per acre by air. Finished spray volumes should be increased under extreme pest populations or dense plant foliage. Do not apply more than 2.8 oz/acre Beleaf® 50SG (0.089 lbs. ai/acre) per application. Do not apply more than 8.4 oz/acre Beleaf® 50SG (0.267 lbs. ai/acre) per year. Do not apply more than 3 applications at the 2.8 oz/acre Beleaf® 50SG rate per year. Allow a minimum of 7 days between applications.
