#### PRODUCT INFORMATION

BORON 10% is formulated for the prevention or correction of boron deficiencies in plants and may be effectively used for both foliar and soil applications. BORON 10% is is an effective, readily available source of boron for soil and foliar applications during preplant, planting or sidedress operations. BORON 10% is non-phytotoxic when used as directed and is compatible with most pesticides and fertilizers. BORON 10% will be influenced by differences in varieties, soil and environmental conditions and should be applied under conditions of optimum plant growth. Optimum conditions are defined as adequate humidity, moderate temperatures and adequate soil moisture. Optimum conditions for most crops generally occur during early morning or late evening hours.
